Introduction

Spotlight 11 is an English course based on the Common European Framework of Reference and designed for B2 level students.

Spotlight 11 develops all four skills (listening, speaking, reading and writing) through a variety of communicative tasks, and systematically recycles key language items. Above all, it is designed to promote active (activating all new vocabulary and structures in meaningful, everyday situations), holistic (encouraging the creative collective use of students’ brains as well as the linguistic analytical use of their brains) and humanistic (acquiring and practising language through pleasant tasks and topics, paying attention to their needs, feelings and desires) learning.

The coursebook consists of eight modules of nine lessons each. Each module is designed to be taught in nine 50-minute lessons. Each module ends with a Spotlight on Exams section as well as a Progress Check section.

COURSE COMPONENTS

Student’s Book
The Student’s Book is the main component of the course. Each module is based on a single theme and the topics covered are of general interest. All modules follow the same basic structure (see Elements of a Module).

Workbook
The Workbook is in full colour.

The Workbook contains units corresponding to those in the Student’s Book. It can be used either in class or for homework upon completion of the relevant unit in the Student’s Book. It aims to consolidate the language presented in the Student’s Book through a variety of exercises, incorporating all four skills.

My Language Portfolio
My Language Portfolio contains material to be used in a variety of tactile tasks throughout the course. This material is printed on pages which students may then cut out and file in their individual Language Portfolios (see Students’ Language Portfolios).

Teacher’s Book
The Teacher’s Book contains detailed Teacher’s notes, which provide:
• objectives of each unit in a clear and concise way
• step-by-step lesson plans and suggestions on how to present the material
• a full Key to the exercises in the Student’s Book and Workbook
• tapescripts of all listening material

Class Audio CDs
The Class Audio CDs contain all the recorded material which accompanies the course.

Student’s Audio CD
The Student’s Audio CD contains the recorded dialogues and the main texts in the Student’s Book, and may be used for the purposes of homework, preparation and practice.
ELEMENTS OF A MODULE

Each module starts with a module presentation page to familiarise students with the language and patterns in the module. The module presentation pages also whet students’ appetites by familiarising them with some of the text types, pictures and activities found in the coming module. Each module contains the sections described below.

Vocabulary
Vocabulary is introduced in a functional and meaningful context, and is practised through a variety of exercises such as picture-word association and completing set phrases in order to help students use everyday English correctly. Further Practice is provided in the Word Perfect section at the back of the book.

Reading
Dialogues
In each module there is a situational dialogue set in an everyday context in order to familiarise students with natural language. This dialogue also presents useful expressions so that students can practise everyday English.

Texts
Throughout each module there is a wide variety of reading texts such as e-mail, text messages, letters, articles, poems, etc, which allow skills such as reading for gist and reading for specific information to be systematically practised.

Grammar
The grammar items taught in each module are first presented in context, then highlighted and clarified by means of clear, concise theory boxes. Specific exercises and activities methodically reinforce students’ understanding and mastery of each item. There is a Grammar Reference Section at the back of the Student’s Book which offers detailed explanation of each grammar point. Further practice is provided in the Grammar Check section at the back of the book.

Listening
Students develop their listening skills through a variety of tasks which employ the vocabulary and grammar practised in the module in realistic contexts. This reinforces students’ understanding of the language taught in the module. Many tasks included in the Student’s Book are multi-sensory, enabling students to practise all four language skills as they complete the task.

Speaking
Controlled speaking activities have been carefully designed to allow students guided practice before leading them to less structured speaking activities.

Pronunciation/Intonation
Pronunciation/Intonation activities help students to recognise the various sounds of the English language, distinguish between them and reproduce them correctly.

Everyday English
These sections provide practice in real-life communication skills and promote active learning. Standard expressions and language structures associated with realistic situations are presented through everyday situations and students are given the opportunity to fully activate the language taught.
**Songs**
There are song sheets at the back of the Student’s Book containing songs connected to the theme of the modules as well as related tasks. Listening to lively, high quality songs is a humanistic activity which lowers the students’ affective filters and allows them to absorb language more easily.

**Games**
These sections use the format of a team competition to consolidate the learning of vocabulary, expressions and grammar presented in the module. Games enable students to use new language in an enjoyable way and promote humanistic learning.

**Study Skills**
Brief tips, explanations and reminders, at various points throughout each module, help students to develop strategies which improve holistic learning skills and enable students to become autonomous learners of the English language.

**Writing**
In the fifth lesson of each module, students develop their writing skills through the use of all four language skills.

Guided practice of the relevant vocabulary is given and consolidated and followed by a model text which is thoroughly analysed.

**Further Writing Practice**
There are writing activities throughout the modules, based on realistic types and styles of writing, such as letters, descriptions, notes, postcards and articles.

**Culture Corner section**
In these interesting and informative pages, students are provided with cultural information and read about aspects of English speaking countries which are thematically linked to the module. The section also contains related tasks and creative projects, which give students the chance to process the information they have learnt and compare it to the culture of their own country.

**Literature section**
This section enables students to familiarise themselves with literature extracts from various authors in English.

**Across the Curriculum section**
This section enables students to link the theme of the module to a subject on their school curriculum, thus helping them to contextualise the language they have learnt by relating it to their own personal frame of reference. These units contain lively and creative tasks which stimulate students and allow them to consolidate the language they have learnt throughout the module.

**Going Green section**
Through a variety of reading texts, these pages raise students’ awareness of environmental issues.

**Progress Check**
These sections appear at the end of each module, and reinforce students’ understanding of the topics, vocabulary and structures that have been presented. A marking scheme allows students to evaluate their own progress and identify their strengths and weaknesses.
SUGGESTED TEACHING TECHNIQUES

A — Presenting new vocabulary

Much of the new vocabulary in Spotlight 11 is presented through pictures, or by encouraging students to refer to the Word List or their dictionaries. Vocabulary is always presented in context, and emphasis is placed on collocations, phrasal verbs, idioms and word association, since memorising new words is easier when they are presented in lexical sets.

Further techniques that you may use to introduce new vocabulary include:

- **Miming.** Mime the word to be introduced. For instance, to present *sing*, pretend you are singing and ask students to guess the meaning of the word.
- **Synonyms, opposites, paraphrasing and giving definitions.** Examples:
  - Present *store* by giving a synonym: *A store is a shop*.
  - Present *tall* by giving its opposite: *He isn’t short, he’s tall*.
  - Present *weekend* by paraphrasing it: *I don’t work at the weekend. I don’t work on Saturday and Sunday*.
  - Present *garage* by giving a definition: *A garage is the place next to the house where we put our car*.
- **Context.** Place vocabulary items in context with examples which make understanding easier and more complete. For instance, introduce the words *city* and *town* by referring to a city and a town in the students’ own country: *Moscow is a city, but Suzdal is a town*.
- **Visual prompts.** Show photographs or drawings to make understanding easier.

- **Use of (bilingual/monolingual) dictionary.** Encourage students to guess the meaning of a word, then use their dictionaries to check if their guess is correct.
- **Sketching.** Draw a simple sketch on the board to illustrate the word(s) to be explained. For instance:

    ![Sketch of tall and short]

- **Flashcards.** Make Flashcards out of magazine or newspaper pictures, photographs, ready drawings and any other visual material which may serve as vocabulary teaching tools.
- **Use of L1.** In a monolingual class, vocabulary can be explained in the students’ mother tongue, although this method should be used only in moderation. Students also need to compare their mother tongue to the English language to find similarities and/or differences.

The choice of technique depends on the type of word or expression. For example, it may be easier to describe an action verb through miming, and not through a synonym or definition.

B — Writing

All writing tasks in Spotlight 11 have been carefully designed to guide students to produce a successful piece of writing.

- Always read the model text provided and deal in detail with the vocabulary tasks. Students will then have acquired the language necessary to cope with the final writing task.
• Make sure that students understand they are writing for a purpose. Go through the writing task in detail so that students are fully aware of why they are writing and who they are writing to.
• It would be advisable to complete the task orally in class before assigning it as written homework. Students will then feel more confident about producing a complete piece of writing on their own.

C — Assigning homework
It is recommended that homework is regularly assigned and routinely checked according to the specific needs of the class.

When assigning writing tasks, prepare students as well as possible in advance. This will help them avoid errors and get maximum benefit from the task. Commonly assigned homework tasks include:
• Vocabulary. Students memorise the meaning of words and phrases.
• Spelling. Students learn the spelling of particular words without memorising the text in which they appear.
• Reading aloud. Assisted by the Student’s CD, students practise at home in preparation for reading aloud in class.
• Writing. After thorough preparation in class, students are asked to produce a complete piece of writing.

D — Correcting students’ work
All learners make errors; they are part of the process of learning. The way errors are dealt with depends on the activity.
• Oral accuracy. In drill work correct students on the spot, either by providing the correct answer and asking them to repeat it, or by indicating the error but allowing students to correct it. Alternatively, indicate the error and ask other students to correct it.
• Oral fluency. In pairwork or free speaking activities allow students to finish the task without interruption, but make a note of the errors made and correct them afterwards.
• Written work. Do not over-correct; focus on errors that are directly related to the point of the exercise. When giving feedback you may write the most common errors on the board and help the class to correct them.

Remember that praising students and rewarding good work is of great importance. Post written work on a notice board in the classroom or school, or give ‘reward’ stickers. Praise effort as well as success.

E — Class organisation
• Open pairs. The class focuses its attention on two students doing the assigned task together. Use this technique to provide an example of how the task should be done.
• Closed pairs. Pairs of students work together on a task or activity, while the teacher moves around the classroom offering assistance and suggestions. Ensure the task is clearly understood before closed pairwork begins. Stages in pairwork:
  - Organise students into pairs
  - Set the task and time limit
  - Rehearse the task in open pairs
  - Ask students to do the task in closed pairs
  - Go around the class and help students
  - Pairs report back to the class
• Groupwork. Groups of three or more students work together on a task or activity. Class projects or role play are often most easily done in groups. Again, ensure students clearly understand the task in advance.
• **Rolling questions.** A student answers a question, then proceeds to ask a question directed at the next student in turn. This continues around the class.

**F – Using the Student’s Audio CD**

All dialogues and texts in the Culture Corner and Extensive Reading sections are recorded on the Student’s Cassette or CD. Students have the chance to listen to these recordings at home as many times as they want in order to improve their pronunciation and intonation. The suggested stages of such self-access study are:

- The student listens to the recording and follows the lines in the text or dialogue.
- The student listens to the recording with pauses after each sentence or exchange. The student repeats as many times as needed, trying to imitate the speaker’s pronunciation and intonation.
- The student listens to the recording again, then reads aloud.

**STUDENTS’ LANGUAGE PORTFOLIOS**

At the beginning of the course, students should be asked to obtain a suitable folder, or sectioned document wallet, which they will bring to each lesson and which will hold their personal Language Portfolio.

This will be used to store not only the material cut out of the printed supplement, *My Language Portfolio*, but also a wide variety of other documents and material.

In practice, Language Portfolios may include projects or other written work; computer diskettes with work or drawings completed inside or outside the class; video cassettes with the students’ favourite story, filmed performances of songs, school plays, Evaluation Sheets and reports from teachers, various realia or pictures and so on. In short, it is a collection of what the learners want to keep as evidence of what they are learning through the medium of the English language.

This Language Portfolio is the student’s property. It is a tool to accompany the students’ language learning throughout the course and is suitable for documenting their learning both inside and outside the classroom. The main emphasis is on the process of learning, so that while compiling their Language Portfolios, learners develop the skill of working independently.

The aim of the Language Portfolio is to develop the learners’ autonomy. However, they should be guided at first on how to organise their work, keep records, access their own information, etc. Learners are usually willing to experiment and try new things, but at the same time, can be discouraged if they are not sure what is required of them. Once a routine has been established and learners begin to develop their autonomy, they can be given more responsibility and freedom. Learners will still appreciate feedback and appraisal though, so it is important that their efforts are monitored and facilitated.

**First Steps**

It is suggested that work on the Language Portfolio is started a few weeks into the course once students have made some progress in the English Language. At this level a letter can be sent home to parents to inform them that the students will need a folder, plastic envelopes, etc. At the beginning of the first session, ask the students to turn to page three of their Language Portfolio. Go
through the letter together, making sure that the students have a thorough understanding of the concept of the Language Portfolio. Encourage them to ask questions about anything they do not understand. Then give the students some time to arrange their Language Portfolio. Go around, providing any necessary help.

Once the students have arranged their Language Portfolio, go through each page together, commenting on the layout and pictures, and giving a brief explanation of the content of each page. Spend some time going through the Language Biography section, providing any necessary help. Once this has been completed, encourage the students to do the activities in the Dossier section.

How to approach each section

I) Language Passport
Read out the introductory paragraph as the students follow silently. Answer any questions they may have. Each time they are given something for this section, remind them to make a record and file it in the appropriate section of their Language Portfolio.

II) Language Biography
Spend some time on each section, making sure the students know what is required of them. Here is a brief explanation of the rationale of each section:
- *All about me*: Students fill in their personal information and record their exposure to the English language.
- *How I learn*: Go through the section along with students, providing any necessary help. The purpose of this section is for both students and teacher to be able to determine each student’s individual learning style (*i.e.* visual, auditory, tactile/kinaesthetic) and needs.

- *My World of English*: By updating the record, students get a sense of achievement in the target language.
- *Now I can*: Students have the opportunity to assess their own learning. If a student moves to a new school his/her teacher will also be able to gauge this student’s level.
- *Future Plans*: Students record their intentions and ambitions concerning their improvement in the target language.

III) Dossier
The activities have been designed to reinforce the language covered in each module. They can be done upon completion of each module or at a time convenient to the teacher, provided that students have covered the corresponding module.

It is suggested that teachers participate in the activities by bringing in a completed version of an activity to be presented. Students need to be motivated and inspired, and the following is a suggestion on how to approach each activity. Every time students present an activity, give them due praise and attention, reward them with stickers, etc. In general, make them feel that they have done something special; in this way, all the class will be encouraged to do likewise.

**TYPES OF LEARNING STYLES**

Experienced teachers will be aware that some of their students learn best by listening to new information, some prefer to read about it, whereas other students need to do something with the new information. There is no absolute ‘best’ method of learning; these are all valid learning styles, as different people learn in different ways. Consequently, a coursebook should offer a variety
of exercises and material which stimulate all types of learning style in order to help the learners learn according to their personal learning styles.

- **Visual Learners** need to see the teacher’s body language and facial expression to fully understand the content of the lesson. They think in pictures and learn best from visual displays, including diagrams, illustrations, transparencies, videos, flashcards and handouts.

- **Auditory Learners** learn best through verbal explanations, discussions, talking things through and listening to what others have to say. Written information may have little meaning until it is heard. They often benefit from reading a text aloud and using a tape recorder.

- **Tactile/Kinaesthetic Learners** learn best through a hands-on approach, actively exploring the physical world around them. They may find it hard to sit still for long periods and may become distracted by their need for activity and exploration. These learners express themselves through movement. They have a good sense of balance and hand-eye coordination. By interacting with the space around them, they are able to remember and process information. Involve them in role play, pairwork and other classroom activities.

Look at Module 1

In order to stimulate discussion and interest, ask Ss which page each picture is from. Then elicit other information (e.g. what the picture shows and what they think the unit might be about).

Suggested Answer Key

Focus Ss’ attention on picture 1.

T: What page is picture 1 from?
S1: It’s from page 10.
T: What can you see in picture 1?
S2: A couple with their family.
T: What do you think this section will be about?
S1: Probably about how people get on with members of their family. etc

Pic 2 (p. 23)
What does this picture show? Are there lots of trees in your neighbourhood? Why is it good to have trees around us? Have you ever planted trees or flowers? Where?

Pic 3 (p. 24)
What can you see in the picture? Which city do you think it is? What are the advantages/disadvantages of living in a big city? Which big cities have you visited?

Pic 4 (p. 25)
Who is this a picture of? What is she famous for?

Find the page number(s) for

Allow Ss time to browse through the units and find the relevant information. Then ask them to explain what each one is, and elicit simple information about each item.

Suggested Answer Key

a letter (p. 14)
(a long note to a friend) Who is this letter from? What is the letter about? Who is it written for?

Go through the rest of the sections with your Ss and point out that by the end of the module they will know how to perform the tasks listed.

Explain that the module has:
– a Literature section
– a Culture Corner
– an Across the Curriculum section
– a Going Green section

Ask Ss to look at the relevant pages and elicit what each section is about.

Suggested Answer Key

The Literature section seems to be about authors, books and literature extracts. This one (pp. 16-17) is about Oscar Wilde and an extract from one of his tales The Devoted Friend.

The Culture Corner (p. 21) contains an article about multicultural Britain.

The Across the Curriculum section (p. 22) looks at how different families lived during Victorian times.

The Going Green section looks at different green issues. This particular one (p. 23) is about how we can make our neighbourhood cleaner and greener.

Select Ss to read through the list of items that will be covered in the module. Ask questions and give examples as appropriate. If necessary, explain any new vocabulary. Ask Ss to go through the list and put a tick next to the items that they think they know or can do, a cross next to the ones they don’t know or are not sure about, and a star next to the ones they think will be the most useful. Select Ss to report each item they have ticked or put a star next to.

• Allow Ss a few minutes to discuss in pairs and then invite a few pairs to report back to the class.

Suggested Answer Key
In the first picture we can see five people around a table — two children and three adults. They are in someone’s house. It looks like it is the girl or boy’s birthday as there are presents in front of them. I think the boy and girl are brother and sister and their parents and grandmother are with them. In the second picture there are also five people — three children and two adults. They are standing outside someone’s house and talking. One of the boys, a girl and a man are standing on one side of the fence; the woman and the other boy are on the other side. I think they are two different families and that they are neighbours. In picture three we can see two young people a girl and a boy. They sitting outside in a park. The girl is looking at the boy. Maybe she is trying to talk to him but he is looking away. Maybe they are boyfriend and girlfriend.

**TAPESCRIPT**

**Volunteer:** Hello. ‘Neighbours From Hell’ help line. Who’s calling, please?

**Woman:** My name is Mary Smythe.

**Volunteer:** Mary Smith?

**Woman:** No, Smythe. It’s S-M-Y-T-H-E.

**Volunteer:** Ok, Mrs. Smythe. How may I help you?

**Woman:** Well, I’ve been having some serious problems with my new neighbours and I just don’t know what to do.

**Volunteer:** What kind of problems?

**Woman:** Well, my main complaint is that they are so noisy. They play their music full blast and always have lots of visitors coming round to their house and making a lot of noise. There is so much noise that I can’t sleep at night, and I can’t work during the day. I can’t even watch TV quietly in my own home!

**Volunteer:** I see. Any other complaints?

**Woman:** Unfortunately, yes. Lots of rubbish has also appeared in my back garden recently. I’m sure they have been throwing it there. It looks so untidy! What can I do?

**Volunteer:** How long as this been going on?

**Woman:** For about three months now.

**Volunteer:** Have you tried talking to them and explaining how you feel?

**Woman:** Yes, I spoke to them the first week they moved in and explained that this was a quiet neighbourhood, but they just laughed.

**Volunteer:** Well then, I suggest you do the following. Write down the dates, times and causes of the noise and any other trouble in a diary. If you can’t resolve the problem in a friendly way, you may need to involve the police and the more information you have, the better.

**Woman:** Ok. I’ll start doing that right away.

**Volunteer:** And please call us any time. We are there to support and help in any way we can.

**Woman:** Thank you very much.

Objectives

Vocabulary: adjectives to describe character; collective nouns
Reading: an extract from The Devoted Friend (gapped text)
Skill — reading for detailed comprehension
Writing: a dialogue
Speaking: discussing friendship, acting out a dialogue

1 FOCUS ➤ Reading for specific information
- Ask Ss to look at the picture and the title. Elicit ideas from the Ss about the content.
- Ss read the biography and check their predictions.

Suggested Answer Key
The title of the story is ‘The Devoted Friend’, so I think the story is about a very good friend. In the picture we can see two people — one fat and one thin. The thin one is giving the fat one some vegetables/flowers. I think that no matter how little you have, it is good to share it with other people. True friendship asks for nothing in return.

2 FOCUS ➤ Reading for specific information
Explain the task. Allow Ss two or three minutes to silently read the first paragraph and answer the question.

Suggested Answer Key
No, I don’t think he was a devoted friend. He always took things from little Hans and gave nothing to him.

3 FOCUS ➤ Reading for detailed comprehension
- Read through sentences A-H with Ss and explain that they have been left out of the text and must be put back into their appropriate position but there is one extra sentence they will not need to use.

• Ss read the entire text again and complete the task. Remind Ss to read the text one more time to ensure that their answers are correct.
• Ss listen to the recording and check their answers.

Answer Key
1 E 3 H 5 B 7 D
2 A 4 C 6 G

6 **Focus ➤** Describing the characters in the story

- Write up the adjectives to describe the characters on the board. Explain/Elicit what they mean.
- Explain the task. Ss work in pairs. Remind Ss to provide reasons for their answers.
- Check Ss’ answers around the class.

**Answer Key**

**Hans:** lonely (the miller didn’t visit him in the winter), kind-hearted (he gave the Miller things and never thought about whether he would have enough for himself), polite/well-mannered (Hans nodded and smiled)

**Hugh:** selfish (he would always take things from Hans and never thought about giving him anything), vain (he thought his friendship towards Hans meant everything and that being able to give him things made him happy)

**the Miller’s youngest son:** compassionate (he understood that Hans might be in trouble and offers to give him half of his porridge/to show him his white rabbits)

7 **Focus ➤** Developing vocabulary (collective nouns)

- Revise the concept of collective nouns by holding up various items, e.g. a bunch of keys, a pile of books. Explain that sometimes the same noun can be used to describe a few different things (‘bunch’ is also used to describe grapes).
- Ss complete the task and check their answers using a dictionary.

**Answer Key**

Suggested Answer Key

Some of my best friends are people I only see occasionally. But when we get together, it’s like they have always been in our lives. Our friends are only a phone call away. We can speak to them when we need to. You can think about your friends and support them even if you are not nearby.

Focus ➤

Suggested Answer Key

S1: I don’t agree with the first statement.
S2: Neither do I. If people have everything in common, then life is boring. I think it is good to have friends who are slightly different to you.
S3: Yes, I agree. But it is good to have some common interests.
S1: Do you think that true friendship is unselfish?
S2: Yes, I think that’s right. You must be able to think of the other person and not just about yourself.
S3: Yes, that means that you are willing to do things for others and that you value a person’s friendship.
S1: Do you agree that when people are in trouble they should be left alone?
S2: No, I think that’s wrong. If someone is in trouble, that’s when they really need their friends.
S3: I agree. What about the last quotation?
S2: I think it is saying that friendship should only go so far. Food (flour) is more important than friendship – we have to think about ourselves first.
S3: Do you agree with that?
S2: No, I don’t. Do you?
S3: Not at all. etc

Suggested Answer Key

‘Real friends should have everything in common.’ (line 7)
‘the unselfishness of true friendship.’ (line 16)
‘...when people are in trouble they should be left alone, and not be bothered by visitors. (lines 25-27)
‘Flour is one thing, and friendship is another, and they should not be confused.’ (line 47)
b) **Focus ➤** Listening to the next section of the story

- Play the recording to the class. Ss say how it compares to their versions.

_(Ss’ own answers)_

**TAPESCRPT**

**Miller:** Good morning, little Hans.

**Hans:** Good morning.

**Miller:** And how have you been all winter?

**Hans:** Well, really, it is very good of you to ask, very good indeed. I am afraid I had rather a hard time of it, but now the spring has come, and I am quite happy, and all my flowers are doing well.

**Miller:** We often talked of you during the winter, Hans, and wondered how you were getting on.

**Hans:** That was kind of you. I was half afraid you had forgotten me.

**Miller:** Hans, I am surprised at you. Friendship never forgets. How lovely your primroses are looking, by the way!

**Hans:** They are certainly very lovely, and it is a most lucky thing for me that I have so many. I am going to bring them into the market and sell them to the Burgomaster’s daughter, and buy back my wheelbarrow with the money.

**Miller:** Buy back your wheelbarrow? You don’t mean to say you have sold it? What a very stupid thing to do!

**Hans:** Well, you see the winter was a very bad time for me, and I really had no money at all to buy bread with. So I first sold the silver buttons off my Sunday coat, and then I sold my silver chain and lastly I sold my wheelbarrow. But I am going to buy them all back again now.

**Miller:** Hans, I will give you my wheelbarrow. It is not in very good repair; indeed, one side is gone, and there is something wrong with the wheel-spokes; but in spite of that I will give it to you. ..I think that generosity is the essence of friendship, and, besides, I have got a new wheelbarrow for myself.

**Hans:** Well, really, that is generous of you. I can easily repair it, as I have a plank of wood in the house.

**Miller:** A plank of wood! Why, that is just what I want for the roof of my barn. There is a very large hole in it, and the corn will all get damp if I don’t stop it up. How lucky you mentioned it! I have given you my wheelbarrow, and now you are going to give me your plank. Pray get it at once, and I will set to work at my barn this very day.

**Hans:** Certainly.

**Miller:** It is not a very big plank, and I am afraid that after I have mended my barn-roof there won’t be any left for you to mend the wheelbarrow with; but, of course, that is not my fault. And now, as I have given you my wheelbarrow, I am sure you would like to give me some flowers in return. Here is the basket, and mind you fill it quite full.

**Hans:** Quite full?

**Miller:** Well, really, as I have given you my wheelbarrow, I don’t think that it is much to ask you for a few flowers. I may be wrong, but I should have thought that friendship, true friendship, was quite free from selfishness of any kind.

**Hans:** My dear friend, my best friend, you are welcome to all the flowers in my garden. I would much sooner have your good opinion than my silver buttons, any day.

**Miller:** Good-bye, little Hans.

**Hans:** Good-bye.

b) FOCUS Writing an article to describe someone
- Allow Ss time to plan and write their article.
- Remind Ss to use the checklist. If necessary, Ss can complete the task as homework.
Moreover, she is good at giving advice. However, she does tend to take ages to make decisions and in that way she is very different from me. But, I think that she is wise not to rush into things. In her free time she likes to take up new hobbies. She is far more adventurous than I am and I often wish I was more like her. There seems to be nothing she can’t turn her hand to – she designs jewellery, makes her own clothes and paints landscapes. She is very creative. But the most important thing of all is that she makes an effort to keep our friendship going. She regularly writes, calls and comes to visit. I think we will be very good friends for a long time to come. I sincerely hope so.

A Person I admire
Alison and I went to secondary school together, but we didn't become friends until she left school and I moved to the same town as her. I always thought she was different and admired her for not caring about what people thought of her. Suddenly, we found ourselves spending a lot of time together and we became really close. I have always admired her individuality and her sense of style. As you enter a room you notice her unique clothes – bright garments that have a sense of fun. She is a qualified hairdresser, so she is always experimenting with her hair! You never know from one day to the next what she will look like! She is far from boring! Another thing I admire about Alison is her calm personality. She never seems to be in a hurry. She is both patient and caring.

TAPESCRPT
Rep: Good Morning, Neighbourhoods in Bloom, how can I help you?
Man: Good Morning, I’d like to find out if I’m eligible for the Neighbourhoods in Bloom project please.
Rep: Certainly, Sir. Which area do you live in?
Man: I live in East Swinton.
Rep: Ok, that’s fine. That area is included in the project. Can I have your name, please?
Man: Mike Browne. That’s B-R-O-W-N-E
Rep: Ok, and for our records, could I ask where exactly you are going to plant the bulbs?
Man: Well, the members of our neighbourhood gardening group are going to plant them in their gardens and then we’re going to get together and plant them in the local park too, under the trees.
Rep: That sounds like a great idea, Mr Browne. Now, we usually send out a variety of bulbs but are there any that you’d like in particular?
Man: Oh…errr…well, I’d be happy with a mixture but perhaps you could include some tulips in different colours? Oh, and perhaps some daffodils and snowdrops?
Rep: Yes, that should be fine. We have plenty of all of those types. Now, we’ll send you 500 to begin with and if you need any more just contact us. And to which address should we send the bulbs?
Customer: You can send them to 51, Green Road. That’s my address.
Rep: Ok, I think that’s everything then. You should be receiving the bulbs within the next week. We’ll also send you some leaflets to hand out to friends. We have 1 million bulbs to give away altogether!
Man: Wow! Well, it’ll be great to see the city looking more colourful!
Rep: Yes, that’s our aim. Thank you for signing up and happy planting!
Man: Thank you! Goodbye.

- Check Ss’ understanding by asking questions: What are you going to write? (a letter) Who is the letter for? (my pen-friend Sue) What do you need to include? (a question about her neighbourhood, three questions about her new friends).

**Suggested Answer Key**
Dear Sue,
It was great to hear that you are doing well in your new town and I’m glad you like your new neighbourhood. What’s it like where you live? I miss you a lot too! But, you must have made some new friends by now! What are they like? Do your new friends love going to the cinema as much as you do? Do they go to the same school as you? And what about sports — are your friends as sporty as you are?
Well, I’ve got to go now. Mum’s calling me!
Best wishes,
Francine
My family has five members and we are all very close. My mother, father, and grandmother take good care of my little sister and myself. Even though my parents work long hours, they always find some time to spend with my sister and me. We try to eat together every night when it is possible. I am proud that I can talk about anything with my parents and grandmother. I really think my grandmother is great, as she has lived such an interesting life and always gives great advice. We all think family is very important and enjoy spending time together. We often go to the beach or for a picnic on Sundays. We also play card games together or spend an evening talking and laughing, etc.

What is your favourite thing to do with your family? Are you closer to a particular family member? Why? What is your relationship with your sister like? etc.

**Suggested Answer Key**

I. Stress is the natural reaction the human body has to deal with life’s changes. When we are stressed, our muscles tense, our breathing becomes shallow and adrenaline is released into our bloodstream. This helps us focus and gives us the strength to survive in difficult situations. Stress is sometimes good because it keeps us alert, but it is bad for the heart and our general well-being if we have a lot. Thankfully, we can quite often avoid stress and we can also learn how to cope with it. When I feel stressed, for example, when I have too much work to do, am sitting exams or am organising an important event, I try to do a lot of aerobic exercise or listen to some calm music. That usually helps. etc

Danny always found new ways to irritate me. He used to grab my mobile phone and hide it somewhere. Just because he was Sharon’s little ‘golden boy’, he thought he could do anything. He hated sharing his house with me as much as I hated being there. He wanted all of the attention to himself. And he did get more attention than me — and more pocket money too. He spent it all on clothes. He liked to wear designer stuff whereas I had to make do with second-hand. Many years later, when I got married to my true love and had my own family, I vowed to treat my children equally and make our home full of happiness. I am glad to say things are working out really well for me now. etc

Dear Miss Jones,

I am writing on behalf of my class at Offerton High School where you recently gave an excellent talk on peer pressure. I would like to express our gratitude for what we felt was an informative and enjoyable afternoon. In particular, the members of my class were impressed by the useful advice that you gave regarding how to deal with peer pressure. Many of my classmates have problems in this area and I’m sure they found your comments very helpful.

I would also like to ask you if it would be possible for you to come again in the future and talk to another class. Several teachers expressed a desire to share your good advice with other classes in the school as the problem is one that all pupils may face. We would be most grateful if you could find the time to visit us again in the near future and look forward to your reply.

Regards,

Peter Quinn

Hi Tom!

How’s things? Great to hear that your exams are over. How did they go? I’m sure you did well because you studied really hard for them.

I’d love to go camping with you this summer. You can’t imagine how much I want to get out of the city. Tell me where you’re thinking of going and also when. My mum wants me to help in the shop over the summer so I’ll have to arrange for someone else to take my place.

I’ve been camping many times with my dad so we’re old hands! We’ve got all the gear we might need. Dad won’t mind if we borrow it!

Before I go, who else have you invited? I hope you’ve invited your cousin, Fiona. I haven’t seen her for ages and she’s great fun! Email me soon!

Lots of love,
Paula

Going Green

Suggested Answer Key

Our product is for chocolates and other sweets. The tray that displays the chocolates is made up of a biodegradable cornstarch material that can be discarded in a home compost pile. The box is made up of 100 per cent recyclable paper and is collapsible. If a consumer collapses the box and returns it to the supermarket, where it will be sent back to the manufacturer for reuse, the consumer receives a 10 percent discount coupon for their next purchase of the product. This acts as an incentive for consumers to return the box so it can be reused. If a consumer decides to throw the box away, then the box can be recycled.

Green Wisdom

TAPESCRPT

Presenter: With us in the studio today is Dr Edmond Hunt, a very experienced plastic surgeon. He is here to speak about teenagers and plastic surgery. Dr Hunt, welcome to the programme.

Doctor: Thank you. Plastic surgery is becoming more and more popular nowadays and many young people are using it to change the way they look. Of course, body image and physical appearance have always been important to teenagers, but now it seems we live in a society where even more importance is placed on being beautiful – in the media, in advertising for example - which does nothing to help teenagers, many of whom already have a very poor body image.

Now, I would like to make a distinction between the two types of plastic surgery and I think we need to be clear about this. First, there’s what we call ‘reconstructive’ surgery which is done to correct defects on the face and body. Examples of this include physical birth defects and injuries like dog bites or burns. This kind of surgery repairs parts of the body. The other type of plastic surgery is called ‘cosmetic’. This kind of surgery involves changing a part of the body simply because a person isn’t completely satisfied with it, for example nose jobs or liposuction (the removal of fat from the body.)

Of course, the well-being of our patients is always our most important concern. There is some concern that the glamorous image of cosmetic surgery as seen on TV can encourage people to change themselves without reason. Teenagers may suffer from low self esteem and choosing plastic surgery is not always the answer to their problems. Often talking to a therapist, dieting and exercise are the solution, for example. We must judge each case individually and help people make the right decision. We must also make sure that the individual has finished growing and is mature enough emotionally to cope with the stress of the operation.

All potential patients go through a series of interviews and those under the age of eighteen need a parent’s signature. It is essential that we talk to parents as cost
is also a main factor. If the patient is suitable, we then help to find a suitable surgeon to perform the operation. He or she must find a certified surgeon, that is to say, one who is qualified to perform the operation well. After all, these operations are expensive and there is some risk involved.

Another word of warning, if I may. No amount of money can buy you happiness. The most expensive cosmetic surgery does not have the power to change who you are inside. A common myth is that we can make people like us more by changing our appearance. Our teenage years are a time of development, of personal discovery. It takes time to understand who you are. Remember, people cannot and should not judge you on your looks alone. If they do, they are not worth knowing.

Some would say, on the other hand, that today we have the power to make ourselves happier with our appearance and we should take that opportunity if we can. Ultimately, the decision to have plastic surgery is a personal choice. If you have any concerns, speak to your parents, or your doctor. One thing is certain - you should think carefully before you decide.

**Suggested Answer Key**

Dear Fiona,

It was great to hear from you. You must be pleased that your exams are over and now it’s time to enjoy yourself.

The anti-bullying week was a huge success and I believe we have really reduced the amount of bullying that goes on in our school. There were talks by experts and films that showed the effects and how to deal with bullying. There was also a confidential helpline for kids who were being bullied.

Anyway, what about the party you mentioned? Where is it and who are you going with? More importantly, who is going to be there? Is Robbie from next door going?

Got to go now. My exams are next week so there’s still a lot of studying for me!

Lots of love,

Fran

B: But she likes gold and that would be really expensive.

A: True. How about a scarf and some gloves?

B: But it'll soon be spring and it won't be cold enough to wear them.

A: Maybe we should just get flowers.

B: But that's far too boring! They look nice but their beauty doesn't last long.

A: So what can we get her?

B: I know the perfect gift — some tickets for the theatre!

A: Excellent idea! I will go to the theatre tomorrow and get them. etc

Then out of the blue someone jumped out in front of me and started to threaten me, saying, “Hand over your purse, or I’ll hurt you.” I was in a state of shock as it was the first time anyone had tried to mug me. At first I didn’t want to give him what he wanted, but when he attacked me with a knife I knew I had to do as I was told. I held out my purse and he grabbed it from me and ran away. Luckily, I was able to give the police a good description of the criminal and they caught him soon after. I identified him as the mugger and he was given a prison sentence.

**Words of Wisdom**

- Draw Ss’ attention to the proverb.
- Elicit whether Ss agree or disagree with the proverb and ask Ss to justify their opinions.

TAPESCRIPTr

1 An incident that happened at school when I was 10 years old really stuck in my mind. One of the boys in the class was being picked on by some older boys. The rest of us were too afraid to help him because we didn’t want to get beaten up too. It went on for ages before I eventually found the courage to say something to the teacher. But on the day that I had decided to speak up, the boy told us all that he was leaving the school and moving to another city. I always felt bad about that afterwards.

2 A: Excuse me. May I ask about your views on environmental protection, please?
B: Sure.
A: Do you think the government is doing enough to solve the problem?
B: Well, the laws are there but they are just not being enforced. I know that people are becoming more aware of the issue but the problems are still there.
A: What do you think should be done?
B: Well, I’ve just joined the local environmental group. We do lots of things to help the environment. But the main thing is for everyone to do a little bit every day.

3 To tell you the truth, I wasn’t too keen on getting involved in the scheme when I first moved into the area. I don’t have a lot of free time and I usually prefer to keep myself to myself. Anyway, I went along to one of their meetings, just to see what they do, and I realised what a good idea it is. I mean, our neighbourhood doesn’t have a really serious problem with crime, but if everyone keeps an eye on things, we can help keep it that way. The police can’t be everywhere all the time!

Writing Skills

- Allow Ss time to write their answers, working in pairs. Remind Ss to use appropriate techniques.

Suggested Answer Key

**Beginning:**
It is a good idea for teenagers to help to look after their younger brothers and sisters. In my view, it is essential that teens have the opportunity to help their families as much as they can. By taking on more responsibility at home, they can start to learn valuable lessons that will help them later in life.

**Ending:**
From my point of view, that of a teenager, we should be given the opportunity to show that we have the maturity and willingness to take care of the rest of the family. After all, ‘The child is the father to the man.’

4 It seems to me that some video games should be banned.

8 a) **Focus ➤** Analysing rubrics

- Explain the task and allow Ss time to identify the key words and prepare answers to the questions.
- Elicit answers from Ss around the class.

**Answer Key**

A **key words:** magazine, opinions, teenagers, help, household chores, essay, giving reasons/examples

The subject is teenagers helping with household chores.

B **key words:** class discussion, child, look after pet, essay, opinion, giving reason/examples

The subject is young children looking after pets.

Suggested Answer Key

A My opinion is that teenagers should help with household chores. It teaches them responsibility. Others in the family will rely on the teenager to complete the chores and they will learn the consequences if they don’t complete them. In addition they learn important living skills they will need as adults. Cooking, helping with the shopping, cleaning and maintaining the house are useful chores they will need to know when they live on their own as adults.

B My opinion is that a child should look after a pet from a young age. They learn responsibility by caring and feeding the pet. They also learn respect for animals by creating a special relationship with another living thing.

b) **Focus ➤** Matching and providing viewpoints and reasons

- Focus Ss’ attention on rubric A again and explain the task.
- Allow Ss time to complete the task in pairs.
- Monitor the activity.
- Invite some pairs to share their answers with the class.
Planning an essay

Focus Ss’ attention on rubric B. Read out the questions to the class.

Allow Ss time to prepare their answers individually.

Ask various Ss to read their answers to the class.

Suggested Answer Key

Starting:

Teenagers lead busy lives. They have school, homework, night classes and sports to fill their days. Is it really necessary for teens to help with the household chores as well? In my opinion, no.

Beginning:

Many families enjoy having a wonderful pet in their home, however should a young child be allowed to take care of a pet?

Ending:

Both small children and pets are rewarded from the loving relationship they create together.

Writing an opinion essay

Focus

Allow Ss time to complete their essays. Remind Ss to use their answers to Ex. 8 and to refer back to the model essay in Ex. 3 as they write.

Draw Ss’ attention to the checklist. Remind Ss to edit their work before completing their final draft.

Ss swap essays with a partner and check each other’s work using the checklist.

Suggested Answer Key

Viewpoint 1 example: Cleaning, cooking, and shopping are some of the valuable chores that teenager would learn that are useful as adults.

Viewpoint 2 reason: they should be allowed to enjoy their free time.

Viewpoint 3 reason: By sharing chores they learn to work as a group and cooperate with others.

Additional viewpoint

It provides the opportunity for teenagers and parents to interact which so rarely happens today.

reason/example: By discussing with the teenager the chores and agreeing on what will be done.

Beginning: Is it a good idea for teenagers to help out with household chores?

Ending: Isn’t it important to do everything possible to prepare our teenagers for the challenges of adulthood?
To begin with, it’s not fair to make teenagers help out at home because they are usually under a lot of pressure at school. If they have cleaning to do when they get home, when will they find the time or energy to do their homework?

In addition, some parents can rely too much on their children to do all the jobs they hate, like weeding the garden. Quite often, children are turned into slaves that work for the benefit of the parents and for little financial reward.

On the other hand, it makes sense to share the household chores. Many parents also lead busy lives and don’t have enough time to do all the jobs that keep a home neat and tidy.

Childhood is a time of learning and every day has something new. If children were forced to work all hours of the day, they would have no time for personal development. After all, as the saying goes, ‘All work and no play makes Jack a dull boy.’

Suggested Answer Key
B What is the one thing that all children of all ages dream of? The answer is, of course, a pet. To my mind, it is a great idea for a child to look after a pet from a young age.

To start with, the child learns responsibility. Every day there are things to do: a dog to be walked, a rabbit’s cage to be cleaned and a cat to be fed. All these little jobs show a child what is necessary to be a responsible individual.

Moreover, having a pet is good company. A child is more likely to spend time rolling around with a dog than glued to a TV screen and in this way, has fun and gets some exercise.

On the other hand, there are some people who say that a child is too young to handle the needs of a pet. They say a child will soon lose interest or forget one of the essential daily chores.

There are advantages and disadvantages to everything, but I firmly believe that young children benefit from the responsibility that comes from having a pet.

The Mausoleum of Lenin, also known as ‘Lenin’s Tomb’ is situated in Red Square. It is the final resting place of Vladimir Lenin, the first Premier of Soviet Russia. His embalmed body has been on display there since he died in 1924, with the exception of a few years during the war when his body was evacuated to Siberia. The original mausoleum was made of wood and was designed by architect Alexei Ivanovich Abrikosov. He was given just three days to complete its construction. The tomb was built to enable people to say their last goodbyes to Lenin. Five days after Lenin’s death, it was decided to place the tomb by the Kremlin Wall in Red Square. More than 100,000 people visited the tomb within a month and a half. By October 1930 the tomb had been enlarged using a variety of materials, such as marble, granite and labradorite. It is an impressive structure, influenced by the great pyramids and the tombs of the Middle East. As the mausoleum is only open three days a week (Tuesday - Thursday) for a few hours each morning, people normally have to wait in a long queue to see Lenin. Many place a single flower in front of him to pay their last respects. It is strictly forbidden to take photographs or talk while inside.

TAPESCRIP

Interviewer: I spoke to some teenagers about how they feel about the household chores they have to do and how they feel about them. Here is what they told me.

Speaker 1: I live in a large house and there is lots of housework to do, so I understand that we all need to do our fair share. I think that's only right anyway. Parents do so much for their kids, so why shouldn't we help out a bit?

Speaker 2: There are several chores that I can't stand doing, like mopping our long staircase and washing the dishes. I'm quite happy to take the dog for a walk though or mow the grass for my dad. I prefer to be in the fresh air.

Speaker 3: I'm under quite a lot of pressure at school this year and I have a lot of homework to do, but my mum still makes me help out with the chores at home. I find that quite annoying because I don't have much time left to just relax or hang out with my friends.

Speaker 4: I have the most jobs to do in the house because my sister is five years younger than me. Not only do I have to dust, tidy up and wash the dishes after dinner, but I also have to hang out the washing. It's such a pain!

Speaker 5: I'd really like to help out more because both of my parents work and I know they're tired when they get home, but I have so many things going on. School is more pressurised this year and I have basketball practice three times a week too, but I try to give my mum a hand whenever I can.

Speaking

Focus Practising informal conversations — discussing options and making a joint decision

- Explain the task.
- Read out the options.
- Go through the conversation plan with Ss, explaining the process.

Writing

Focus Writing a letter to a pen friend

- Explain the task. Check Ss' understanding by asking questions: What are you going to write? (a letter) Who is the letter for? (my pen friend Tanya) Why are you writing? (to tell her about the household chores you do and ask 3 questions about tree planning day).
- Allow Ss time to complete the task.
I'm interested in the tree-planting day you mentioned. What exactly do people do? Are they in teams or is it just you and one tiny tree? Where are you going to plant the trees? Please give me all the details in your next letter!

Got to go now. It's raining and my dad is back from walking the dog. The hall is a mess so it's time to get the mop out! Bye!
Edmund

Dear Tanya,

It was great to get your letter and I'm sorry that you're so busy but these jobs have to get done, don't they?

My family shares the household chores so everyone does their little bit to keep the house spick and span. I'm in charge of my room, which means I have to tidy it and take the rubbish out as well as make my bed — but I don't do it every day! I also sweep the hall and do any mopping when it gets really dirty. It doesn't sound a lot, but there's always something to do!
Module 4

Before you start ...

- Revise one or two points from the previous module (e.g. crime and the law, human rights, etc).
- Direct Ss’ attention to the title of the module, Danger! Elicit that it refers to accidents and emergencies, illnesses and injuries, etc.

Look at Module 4

In order to stimulate discussion and interest, ask Ss which page each picture is from. Then elicit other information (e.g. what the picture shows, what else Ss can see on that page and what they think this unit might be about).

T: What page is picture 1 from?
S1: It’s from page 77.

T: What kind of hospital is it?
S3: It looks like a military hospital. There are a lot of men there with serious injuries.
T: Would you like to work in a hospital?
S4: No, I wouldn’t. I think it would be stressful.

Find the page number(s) for

Allow Ss time to browse through the units and find the relevant information. Then ask them to explain what each one is, and elicit simple information about each item.

4 Reading Skills

Objectives

Vocabulary: injuries
Reading: a story about survival (gapped-text)
Skills — reading for confirmation
— reading for detailed comprehension
Speaking: describing a scene; discussing ethical questions raised in the text; speaking in role (a radio interview)
Writing: writing in role (a paragraph)

1 Focus ➤ Imagining and describing a scene
• Focus Ss' attention on the person in the picture. Ask them to imagine that they are in this situation.
• Play the recording and ask Ss to imagine what they experience using all their senses.
• Invite individual Ss to share their descriptions with the class.

Suggested Answer Key
All around me I can see ice and mountains. The sky is grey but I can see far into the distance. Everything is grey and white. I hear the sound of my heart beating — otherwise there is silence. My feet touch the side of the mountain and I hang there. I feel the weight of my body and I wonder how much longer I'll be able to hold on. I taste the ice-cold water from the icicles around me. I smell the fresh mountain air as it goes into my lungs. I feel exhausted and extremely frightened.

Answer Key
The text is about the miraculous survival of two mountaineers and the painful choice one of them had to make.

2 Focus ➤ Predicting text content
• Read through the phrases with Ss and explain any unknown vocabulary. Explain that the phrases come from the text.
• Elicit from Ss what they think the text is about. Write Ss' suggestions on the board.

b) Focus Speaking in role (a radio interview)
- Arrange Ss in groups of three. Allocate roles.
- Allow Ss time to prepare their questions and answers.
- Ss record their interviews.

Suggested Answer Key
Interviewer: Welcome to the programme.
Simon: It’s nice to be here.
Interviewer: It’s quite a story you two have to tell.
Joe: Yes, it’s truly amazing. We’re so lucky to be alive after our climb up Siula Grande.
Interviewer: What went wrong exactly?
Simon: Everything was fine on the way up the mountain and we weren’t expecting to have any problems at all on the way down. You see, we chose an easier route for our descent.
Joe: But then I slipped and I broke my leg in three places.
Interviewer: That must have been painful!
Joe: Extremely. So, Simon tried to get me down the mountain using a rope. But that didn’t work very well as it was already getting dark and before long, I was hanging over the edge of a deep crevasse. I couldn’t climb back up the rope as my fingers were so frostbitten. I called out to Simon but he couldn’t hear me – I was too far away.

S2: Yes, it’s important to have courage and look to the future. We should not forget the past, but be careful not to become stuck there.

---

**Writing**

8 **FOCUS ➤ Writing in role**

- Explain the task.
- Allow Ss time to complete their writing and swap with a partner for peer correction.

**Suggested Answer Key**

In reality, I had no choice. Dying on the mountain was not an option when I had so much to live for. The nights were the worst. That’s when the cold, the pain, the lack of food and the despair take over. I knew that if I closed my eyes to get just a little rest, then I might never open them again. I can’t tell you how I felt when I saw the rescuers running towards me but the sense of relief was so overwhelming that at that point I blacked out.

Caller: Well, yes. My hearing has been affected. Both of my ears are really blocked up and I can hardly hear anything from the left one. I feel a bit dizzy too.

take more than two every four hours.

An unusual way of predicting earthquakes has been discovered by scientists in China - snakes! Snakes at local snake farms are being observed (by experts) to see if their behaviour changes before an earthquake. Cameras are linked to a broadband Internet connection (by scientists). It is believed that earthquakes from 120 km away can be sensed (by snakes), three to four days before they happen. Their nests are abandoned or even walls are smashed into to escape. Because China is struck frequently (by earthquakes), a reliable method of predicting them must be found (by scientists) to avoid the terrible injury and loss of life that is caused (by them/earthquakes).

Me an’ Becky found the entrance to the cave and I suggested goin’ in. Becky like a girl resisted but after much persuasion stepped in an’ the adventure began.

**Monday**

Becky won’t stop cryin’ and I’m mighty hungry. I don’t know where we went wrong but that entrance jus’ seemed to vanish like your shadow at night. I can’t let Becky see how frightened I am cus’ that’s not how men are. We’ll just keep on and keep hopin’.

**A Trapped!**

The day dawned full of hope. I was holidaying at my uncle’s farm and today I would go exploring the surrounding area. ‘Don’t worry about me, Uncle,’ I shouted merrily as I walked into the dark forest.

The light and warmth of the sunlight faded as I made my way deeper and deeper into the wood. The trees seemed to lean in and whisper among themselves and before I knew it I had lost my way. Trying to find the path back, I came across a cave and entered for shelter suddenly plunging down a hidden hole just inside the entrance.

I must have blacked out, but for how long I didn’t know. I could see nothing as I tried to peer through the pitch-black darkness. I tried to stand but a pain shot up my leg and I collapsed, helpless on the floor.

After some time lying motionless on the floor, I heard a growling sound that made my hair stand on end. My mind raced as I thought of what was in the cave with me. I felt like a mouse trapped before the cat. What happened next I will never understand as I must have passed out from fear.

The next thing I knew was that I woke up in my bed at my uncle’s farm. A search, headed by my uncle, found me and returned me home safe and sound. I cried tears of joy when I saw my uncle and tried to inquire if there was anything else found in the cave but I could only stutter. My uncle hushed me and said ‘you are one very lucky young lady’. If he only knew the half of it! I thought grinning.

**B A Magical Evening**

The wind danced leaves around his feet as Tom hurried to catch the opening of the performance. The theatre doors opened welcomingly and he took his seat just in time for the raising of the curtain.

‘The Amazing Andy,’ being the cheapest night out in a city of extremely cheap nights out was not his first choice, but short of cash and tired of TV, Tom needed some form of entertainment.

Andy came out on stage to a cool ripple of applause and commenced with a series of child’s play card tricks that Tom had seen one hundred and one times before and better. The best was, thankfully, yet to come.

Amazing Andy put on handcuffs and then chains and then ropes and then climbed into a sack after being blindfolded. Raised up over the stage and dropped into a tank full of ferociously ravenous piranhas, Amazing Andy was now in a lot of trouble.

The lights were switched off and then immediately on again and to Tom’s amazement, there was Amazing Andy in the seat next to him, helping himself to a generous handful of Tom’s popcorn. ‘Truly you are amazing Andy,’ breathed Tom, ‘What a miraculous escape!’

After returning to Russia upon his father’s request, he became involved in Russian politics. He later served as advisor to Catherine II. He focused his reforms on education and the arts. Influenced by French educational theory, he pushed for changes in the educational system that included schools for girls. Born himself out of wedlock and concerned about the high rate of infanticide. 5 Focus ➤ Writing in role

- Ss’ eyes closed, ask Ss to imagine that they are in London in 1666 during the time of the Great Fire. Ask Ss to imagine what they saw/heard/smelled/felt.
- Ss note down their ideas and then write their diary entries.
- Monitor the activity, encouraging Ss to describe events in as much detail as possible.
- Invite Ss to read their diary entries to the class.
Suggested Answer Key

Sunday
I was awoken this morning at around 2 am by my mother. The whole neighbourhood was in a panic because there was a big fire that kept spreading. We had to evacuate our house quickly. There wasn’t time to take any of our belongings — we left everything behind and just felt glad that we were still alive.

Monday
I woke up and thought it had all been a dream. I couldn’t understand why I was at Auntie Mavis’s house and then I remembered the fire. Everyone was talking about it all day. No-one could believe that it was still going strong.

Tuesday
Mum and Dad are so sad that we won’t be able to go back to our home — we have lost everything. I saw mum crying earlier and I tried to comfort her. I just want this nightmare to end.

Wednesday
The fire is still going. Auntie Mavis is beginning to worry that the fire might come our way. All we can do is hope and pray that this house will be saved.

Thursday
I am so relieved that the fire has been extinguished. There has been so much damage to the city. London will never be the same again.

4 Going Green

Objectives

Reading: a text about how to minimise water pollution
Skills — predicting text content
— reading for confirmation
Speaking: giving a talk about water pollution

Answer Key
We pollute the water by: using fertilisers that allow weeds to grow; pouring water with chemical substances into storm drains; allowing oil or anti-freeze to get into the water system; allowing litter to get into rivers, streams and oceans.

Focus ➤ Introducing the topic
• Focus Ss’ attention on the picture. Elicit what it shows (a busy neighbourhood with people doing jobs, many of which involve polluting water).
• Brainstorm the different ways in which we pollute water as a class and write Ss’ suggestions up on the board.
• Ss read the labels and check their ideas.

Focus ➤ Suggesting ways to minimise water pollution; reading for confirmation; practising vocabulary
• Allow Ss 3-4 minutes to brainstorm ways in which we can minimise water pollution, working individually.
• Ss compare answers with a partner and add any new ideas to their lists.
• Play the recording. Ss read and listen to the text and check.
• Allow Ss time to explain the meaning of the words in bold. Encourage Ss to use the context to work out the meaning before checking in a dictionary.
3 Preparing and delivering a two-minute talk about water pollution

- Explain the task.
- Allow Ss time to prepare notes and practice their talks.
- Invite individual Ss to give their talks to the class. Provide feedback.

Suggested Answer Key

We must look after our most precious resource — water. Without clean water, humans and animals cannot live. The future of our planet depends on us using water effectively — minimising water pollution and cutting down on the amount of water we use. Every day humans pollute water, often without realising it. We should think twice before we pour anything down our drains or onto the soil - it could be toxic. Also, we shouldn't let grass clippings or leaves get washed into storm drains as this can harm aquatic life. In addition, we should try to reduce the amount of excess water we run off. Try sweeping your garden path rather than using a hosepipe. If we all avoided fertilizers that contain harmful chemicals, the environment would be in a better state. If we take action now, we can minimise water pollution!

4 Discussing a quotation

- Draw Ss’ attention to the quotation.
- Elicit ideas for how to paraphrases the quotation and build up a paraphrase on the board. Ss discuss the meaning in pairs or in small groups.
- Elicit whether Ss agree or disagree with the quotation and ask Ss to justify their opinions.

Suggested Answer Key

S1: I agree with the statement. We often don’t appreciate something until we no longer have it. This can be applied to almost everything in life.

S2: Some people think this way but not everyone. There are people who do realise the importance of something and work hard to protect and care for it. Our environment and natural resources are very important and more awareness is being created everyday about how to protect and care for them.

**TAPESCRIPT**

Jim: Megan! You’re still smoking! You said you were going to give up two weeks ago! Don’t you know how bad it is for you? Think of all the illnesses you can get.

Megan: I know all that, Jim. I’m not stupid. I’m just finding it really hard to give up.

Jim: Have you tried? I mean really tried? There are so many therapies these days that can help.

Megan: What do you take me for? I’ve tried everything under the sun. Nicotine patches, hypnosis... you name it.

Jim: Well, I suppose I can’t talk. You know I used to smoke, don’t you?

Megan: You? No way!

Jim: Uh-huh. I took it up when I was at university and I was under a lot of pressure during exam time. I’m telling you, it was the worst thing I ever did, taking up smoking. I couldn’t play basketball any more without getting out of breath. I kept getting an awful cough. My clothes and hair stank. But I managed to quit a couple of years ago. I haven’t touched a cigarette since.

Megan: So how did you do it?

Jim: Well, like you, I felt I had tried everything. Nothing worked for me. I was really desperate. Then, my girlfriend said she was fed up with me smoking. She told me to give up or she would break up with me!

Megan: Wow! So what on earth did you do?

Jim: Well, I really didn’t want to lose my girlfriend, so I decided to give up smoking however hard it was! In the end, I went to an acupuncturist. There’s one at the health centre in town and he’s really good. I had three sessions and after that, I just didn’t feel the need for a cigarette any more.

Megan: Yuck! I can’t imagine having needles stuck all over my body! I don’t think I could do that.

Jim: Well, if giving up smoking means enough to you, you’ll try it. It was brilliant. It doesn’t hurt. In fact, you hardly feel it at all.

Megan: Is it expensive?

Jim: Well, no if you think of all the money you’ll save by not buying cigarettes...

Megan: You’re right. Have you got the number? I’ll call and make an appointment right away.

Speaking

**Giving a two-minute talk on the medical profession**

- Explain the task and draw Ss’ attention to the bullet points.
- Ss make notes under headings.
- Select individual Ss to give their talks. Ss listen and comment.

**Suggested Answer Key**

Many important people work in the medical profession - ambulance drivers take us safely to the hospital; nurses look after us and make us feel comfortable during our stay. However, undoubtedly, doctors and surgeons have the most important jobs of all. They make important decisions - chose the best treatment and medicines for us - and ultimately, save lives.
There are many advantages of working in such a profession: you get a great sense of satisfaction working with the public. There are also good career prospects and the salary is good too. However, there are also many disadvantages, such as having to work long and unsociable hours. It is also a highly stressful job as it comes with great responsibility. Personally, I admire people who go into the medical profession. I wouldn’t be able to do it myself - I cannot stand the sight of blood!

In my country there are many hospitals, both state-run and private. Generally, the standard of care offered in them is high - there are many top surgeons in Russia and many members of dedicated staff.

**Suggested Answer Key**

When was the last time you were ill? Did you go to the doctor’s? Did you spend time in hospital? Whenever we use the health system, and we use it a lot, the services we use have to be paid for. The question is, should we pay for them ourselves or should they be free. I strongly believe that vital medical services should be free.

To begin with, not everyone can afford healthcare. There are people so poor that they can barely put enough food on the table without having to pay for extra treatments and expensive medicine. A fair society looks after the underprivileged.

On the other hand, medical services are not cheap and eventually someone has to pay. The number of elderly people is increasing and the extra pressure on hospitals and doctors needs to be funded from somewhere.

To conclude, there is no easy answer to this problem but if we want to consider ourselves as belonging to a society, we need to care for all the community regardless of how much they have in their wallets.

There are many advantages of working in such a profession: you get a great sense of satisfaction working with the public. There are also good career prospects and the salary is good too. However, there are also many disadvantages, such as having to work long and unsociable hours. It is also a highly stressful job as it comes with great responsibility. **Answer Key**

- **Bob** — the amount of rubbish everywhere; people not using the bins
- **Helen** — overcrowded public transport and lack of parking
- **Peter** — stray dogs
**TAPESCRIPT**

**Bob**: It makes my blood boil when people throw rubbish on the streets. In my area, it’s so messy! Sometimes, it seems as if there’s rubbish everywhere – on the pavements, in the gutters, even in people’s gardens. I mean, why can’t people just put their rubbish in a bin – there are plenty around! It’s a disgrace!

**Helen**: It really gets on my nerves that public transport is so crowded in my city. It’s impossible to drive into the city now, because there’s nowhere to park, so basically everyone goes to work or school by bus. I guess that’s good for the environment, but there should be more buses at peak times or they should build an underground train system or something. It’s just so horrible standing up all the way to school and sometimes I can’t even get onto the bus in the first place. I just can’t put up with it anymore.

**Peter**: It really annoys me that there are so many stray dogs in the streets in my town. Apart from the fact that I feel very sorry for the poor animals that are left out on the street, it’s a public health problem! Just the other week, a child was bitten by a stray dog! I mean, surely it’s not difficult for the council to have the animals picked up by an animal protection agency? It’s a disgrace!

**Answer Key**

**Bob**  
It makes my blood boil; It’s a disgrace!

B: Yes, it’s awful. Why can’t they clean the streets more regularly?

4  
A: It makes my blood boil when people ask me to buy pirate CDs and DVDs.

B: It doesn’t really bother me.

5  
A: It really annoys me when they allow too many people to board the bus.

B: Well, I’ve still got a lot of unpacking to do but I must go to the supermarket. Is there one nearby?
A: Yes, There’s Morrisons on the main road. I can give you a lift there if you like?
B: That’s kind of you, but I have my own car thanks. I just couldn’t find anywhere to park near here.
A: Yes, that can be a problem, but there are usually a few spaces on the street behind this one or you could buy a parking permit from the local council then you can park in those spaces over the road.

B: But he’s a dog. Of course he sometimes barks!
A: You could let him sleep inside the house. That’s what I’d do.
B: But he would make a mess and I would have to spend all my time cleaning!
A: I think it's a good idea.
B: Well, are the other neighbours as nice as you?
A: Ha ha. Hmm. Well, the Smiths live on the other side and they are a nice family although their dog sometimes barks at night. Then, the Greens live over the road. They're a pleasant bunch and everyone else is nice enough.
B: That sounds great. I think I'm going to like living here.

**Suggested Answer Key**

Ellie was excited at the thought of studying in Paris at the famous Sorbonne University. At the same time, she felt anxious about going to stay with a distant aunt she had never met or even heard of until recently. ‘There really is no other option if you want to study in an expensive city like Paris, as we can barely afford the tuition let alone the cost of food and a flat’ she reviewed her mother’s words of wisdom in her head as she sat in the taxi glancing out at the Paris street life.

Aunt Celia was a very distant cousin of her mother’s. Growing up in the village of Bandol in the south of France, Ellie had never heard much about her mother’s family as they were all back in Marseille or elsewhere in France. Her mother had married her father and moved with him to her village, where her father had found a job as a tax auditor and her mother eventually began teaching at the local school. Ellie and her brother had lived all their lives in Bandol and neither of them had ever been much further than Marseille.

The taxi turned onto the Champs d’Elysee and past all the designer shops and stylish cafes. Aunt Celia’s penthouse flat was located just off the Champs d’Elysee in an elegant neighbourhood called the 8 eme. Manicured lawns and perfect gardens lined the large boulevard where her aunt lived, a far throw from the provincial little town Ellie came from. The taxi slowed and pulled off to the side in front of a grand crimson brick residence. The door to the taxi was swung open by rather a well-dressed doorman, who greeted her with a snobbish air. ‘Madame Goutard is expecting you’ he announced. The doorman paid the taxi driver, retrieved her one suitcase and proceeded up the granite stone path to the elaborate stain-glass and rot-iron entrance. Ellie followed him uncomfortably. Inside the lobby of the building Ellie was taken back by the bleach white marble that seemed to cover everything except the massive gold gilded mirrors that towered over her on each of the walls. As they entered the elevator and the doorman pressed the button for the penthouse, Ellie admitted to herself the Madame Goutard and her obviously affluent world was beyond anything Ellie has ever experienced or even could have imagined. etc

task words: the warden of your local park, report, making some suggestions, how the appearance of the park can be improved

Suggested Answer Key

To: Mike Stephens, Shipton Park Warden
From: Stephen Grimes, Assistant Park Warden
Subject: Suggestions for improving Shipton Park
Date: 5th January

Introduction
The aim of this report is to suggest ways of improving Shipton Park to make the park more attractive and popular.

Appearance
The park is in need of more plants, flowers and trees. Therefore, I suggest that more gardeners be employed by the council. In this way, the park would look better for visitors. Also, there is a lot of litter in the park. I strongly recommend an increased number of litter bins and fines for visitors who litter the park.
Understanding rubrics

- Ss work in pairs and study the rubrics, first underlining the key words and then answering the questions.

- Invite pairs to share their answers with the class. Confirm the correct answers.

**Facilities**

To begin with, I feel the park's facilities could be improved. At the moment, there is no children's playground, so one should be built. In addition, a cafeteria could be opened and a small football pitch constructed.

**Conclusion**

To sum up, I believe that these recommendations would improve the park immensely and encourage more people to use it.

A To: William Porter, Warden of University Accommodation
From: Sarah Walsh, Resident
Subject: Making the flats safer and more pleasant
Date: 14th January

Introduction
The aim of this report is to suggest ways to make the university accommodation a safer and more pleasant place to live.

Security
To begin with, security doors with intercoms and burglar alarms could be installed. Also, security lights could be fitted for the car park. By doing this, the outside area of the flats would be much safer.

Facilities
Firstly, new furniture would make the communal areas more welcoming. In this way, students would spend more time together. In addition, the exterior of the building should be repainted, making it a much more attractive building.

General Environment
In the first place, the path outside the front door needs to be repaved. Also, flowers and trees should be planted. If this is done, visitors will be more impressed by the general area.

Suggested Answer Key
1 Introduce new activities that will appeal to young people e.g. skateboarding, competition video-gaming.
2 Invite specialists to give talks on youth-focused topics e.g. extreme sports
3 Improve toilets and introduce a snack shop selling healthy alternatives to junk food.
4 Repaint, refurbish and rebuild anything that needs improvement.
5 Build football pitch at the back of the community centre.
6 Start a publicity campaign informing young people about the community centre.
7 Have a community 'Gardening day' to help improve the area in front of the centre.

British people live in a variety of different types of houses. There are detached and semi-detached houses, terraced houses, flats, council houses and bungalows. Many people live in detached and semi-detached houses in the suburbs or in villages. British people who live in or near town centres, on the other hand, tend to live in terraced houses. These houses are built in rows and are often close together and have few rooms. Many houses in British inner-city areas are blocks of flats. Some of these are homes to the wealthy; others are cheap council flats. British pensioners often live in bungalows in the suburbs or in villages. These are homes which have no stairs.

4 Focus ➤ Writing a short article about homes in your country
- Explain the task.
- Brainstorm types of houses found in your country and write them on the board.
• Draw Ss’ attention to the prompts provided and instruct Ss to make notes under these headings.
• Allow Ss time to complete the task or assign as HW.
• Ask various Ss to present their articles to the class.

Suggested Answer Key
Most Russian cities are very crowded and congested so houses are often small and in apartment type structures. Pre-revolutionary buildings were built before the 1917 revolution and are low -rise buildings usually situated in the city centres. They are examples of fine architecture with beautiful facades and grand antique entrances. They consist of one to two spacious apartments per floor. Each apartment has high-ceiling and large windows. They are usually the residences of wealthy Russians. Block buildings on the other hand, are 12-30 story buildings built in the 1970-80s to help with housing shortages in the inner cities. The apartments are small with plain décor. These apartments are low cost and mostly families live in them. Residential complexes are the newest type of housing to Russia and considered the most luxurious. These large apartments are found in high-level security complexes. The complexes also provide modern facilities such as pools, garages, parks and sometimes even gyms. They are high cost houses in Russia and often occupied by foreigners. In rural areas and villages, the most popular homes are the traditional two-roomed farmhouses that farmers and their families live in. One room is usually for the family and the other room on the other side of the house is for the animals. There is definitely a variety of houses in Russia that caters to the different lifestyles and people that live in them. etc

Reading: a factfile about shanty towns
Skills — reading for detailed understanding — reading for specific information

**permanent:** lasting forever

3 **Focus ➤ Reading for specific information**

• Allow Ss time to reread the text. Ss answer the questions.
• Select individual Ss to present their answers to the class.

**Answer Key**

• Shanty towns start because governments in the developing world cannot cope with the large numbers of people who move to the cities from the countryside.
• People living in shanty towns face terrible conditions (overcrowding, lack of clean water/sanitation); unemployment; poverty; malnutrition; child labour, crime and violence.
• Charities can offer residents loans so that they can start up businesses and earn a decent living; Governments can provide these areas with electricity, water and other amenities; communities can work together to find solutions to their problems.

4 **Focus ➤ Preparing and presenting a proposal**

• Arrange Ss in groups and explain the task.
• Ss prepare their proposals using the prompts and the information given in the text.
• Invite groups to present their proposals to the class. Vote for the most successful proposal.

**Suggested Answer Key**

Conditions in our shanty town are terrible. We live overcrowded, with no proper sanitation and we face crime and violence everyday. As the city council it is your responsibility to improve and build up the infrastructure of our community.

First of all, proper sanitation and clean water facilities must be built to provide for the entire community. In addition, housing needs drastic improving with proper apartments built and roads constructed. To prevent crime and violence, streets and public area need to be well-light and proper police protection services need to be provided.

Furthermore services need to be provided, such as a community centre for youths that offers activities for them, so they don’t turn to street life and gangs. An employment and job training centre is a valuable service that would help in solving the high levels of unemployment we suffer as a community. Finally small business loan and development programs would be highly effective at creating businesses in our community and decreasing poverty at the same time.

Our community is made up of good people that have the right to safe and clean living conditions. We believe these suggestions if implemented will achieve this goal.
Objectives

**Reading:** a web page (comprehension questions)

**Skill — reading for specific information**

1. **FOCUS ➤ Introducing the topic**
   - Focus Ss’ attention on the picture on the web page. Elicit from Ss what a Green Belt is.
   - Ss listen to the recording and read to confirm the correct answer.

   A Green Belt is a zone of land around urban areas where all housing and other development is forbidden or severely restricted.

2. **FOCUS ➤ Reading for specific information; expressing personal opinion**
   - Allow Ss time to reread the text and answer the questions individually.
   - Select individual Ss to present their answers to the class.
   - Conduct a class poll, asking Ss to raise their hands in order to agree with either Suzy’s or Tim’s viewpoint. Invite individual Ss to explain why they agree with him/her.

   **Answer Key**
   that the country needs more of something: Tim (England has a huge housing shortage)
   the relationship between Green Belts and conservation: Both (that is not why Green Belts were created: Tim; these spaces provide habitats for wildlife — Suzy)
   that some areas of Green Belts are ugly: Tom (some Green Belt land is very unattractive)
   the effect that Green belts have on pollution levels: Both (produces a lot of polluting CO2 — Tim; trees and plants in these open spaces clean city pollution from the air — Suzy)

3. **FOCUS ➤ Matching words and meanings; defining vocabulary**
   - Direct Ss’ attention to the highlighted words in the text.
   - Allow Ss time to match the words with their meanings.
   - Ss use their dictionaries to explain the words in bold.

   **Answer Key**
   alarmed — afraid/anxious
   restricted — limited
   to make way — to create space
   derelict — unused and in a bad state
   oppose — disagree with/fight against
   shortage — inadequate amount
   beyond — on the other side of

   **Suggested Answer Key**
   I agree most with Suzy because it is important to have green, open spaces. Too much concrete is ugly and unnatural. We also need to make sure that wildlife has a home.

   **Answer Key**

4. **Focus** Preparing and holding a class debate on Green Belts

- Divide the class into two groups, one for and one against Green Belts. Explain that an academic debate will follow and Ss may hold an opposite viewpoint but still argue successfully.
- Allow a set time for Ss to prepare their arguments, using the text as necessary.
- Hold a class debate, inviting individual Ss from both sides to present their arguments.

**Suggested Answer Key**

**Group 1 – Arguments for Green Belts**
- Green belts beatify the overall look of the country and prevent unnecessary urban sprawl.
- Provide green open spaces with fresh air to take a break from the city and enjoy the outdoors.
- They are home to much wildlife.
- Their trees and plants clean the pollution from the air.

**Group 2 – Arguments against Green Belts**
- There is too much land allocated for green belts and should be freed up and used for the expansion of cities and towns.
- Some Green Belt land is not at all attractive and should be developed.
- Traffic congestion from commuters travelling over Green Belt land to get to the city causes a lot of pollution.
- Nature reserves provide homes for wildlife, not green belts.

**TAPESCRIP**

I first got the idea of going to work in a primitive village in Africa when my daughter decided to spend her gap year in Uganda, teaching English to
schoolchildren. Her tales of the terrible poverty but fantastic optimism of the people there really got under my skin. I was in my mid-fifties, had worked for almost 30 years in a stressful job and really wanted a change. I realised that what my daughter had done was just the kind of thing I was looking for. After discussing it with my wife, Kay, I informed my boss that I would be leaving at the end of the year. He thought I was mad of course, just like everyone else. After all, I was giving up a six-figure salary in the City of London and of course he was a bit worried about finding someone else for the job. In the end though I think he understood that it was something that meant a lot to me. I think he even envied me in a way ...

In the beginning, I thought it would be a lot harder to give up all the luxuries I was used to. We lived in a beautiful house in Chelsea, regularly dined out in fancy restaurants and drove expensive cars. Things couldn’t have been more different in Uganda. I will never forget arriving at the village that was to be our home for the next 12 months. Crowds of people came out to greet us, cheering and smiling. It was the most unbelievable welcome I have ever had. Then they proudly led us to our accommodation. Well, I’m telling you, it was no Chelsea townhouse! Basically, it was a mud hut with no electricity which meant of course no lighting, heating, oven or fridge. It was extremely primitive, but that’s exactly what I’d expected. What I found shocking was how much more cramped and unsanitary the homes that the villagers lived in were. Our house was regarded as quite luxurious compared to them!

Not having electricity was one of the most difficult aspects of life there. It really brought home to us just how much we take for granted in the western world. We had to use a big pot, like a bucket, for cooking. We had to fetch all our drinking water from a well, then boil it over a fire, as this was the only way we could sterilise it. Then it was a race against time to cook before the sun went down and we could no longer see. The house itself had a thatched roof with a hole in the middle for the smoke from the fire to escape. The walls were made of long sticks covered with mud. The floor inside was just earth, patted down hard. We only had piles of straw to sleep on but I can safely say that I slept better than I ever had before while I was in Uganda. It was just so peaceful. You don’t realise how much city noises disturb your sleep until they’re not there any more.

We found it quite hard to settle back down in England after we returned from Africa — so much so that we are considering going abroad again. We are already in the planning stages, but we are going to try another continent this time. I think once you get the travelling bug, it never leaves you.

- Allow Ss time to complete the task.

**Suggested Answer Key**

Hi Amy!

It’s always good to hear from friends, especially now that I’ve moved away from the old neighbourhood. Let me tell you all about my new area.

I live in a bungalow on the outskirts of the city. The house is okay but I miss being able to run up and down the stairs. Never mind, we have got a fantastic garden at the back and the park is really close, too.

You say in your email that you’ve been gardening. I thought you hated gardening! What changed your mind? Is that big tree which we used to climb still there? Are there any frogs in the pond at the bottom of the garden?

Got to go now because we’re going into the town centre to do some shopping. Write back soon!

Answer Key

I live in a friendly but crowded neighbourhood just outside the Garden Ring in Moscow. I have lived there all my life and have a lot of friends and family that live nearby. Just off our street is a main street where I can find just about anything from a flower shop to a food market. My school is in walking distance and there is a small green park nearby. I like the convenience of my neighbourhood. We rarely have to travel on the crowded metro or other transport. I wish however, there was more space in my neighbourhood and more parks and places to go and enjoy the outdoors. The people are very friendly and it definitely feels like home for me. etc

Reading Skills

Suggested Answer Key
The SETI programme started in the 1960s. It uses high-tech equipment and hopes to establish contact with extraterrestrial life. Scientists involved in the programme listen to radio waves using huge radio telescopes. They truly believe that aliens may be intentionally sending out communication signals to us.

Despite the enthusiasm of its participants, however, the programme faces many problems. For instance, there is little chance of them ever finding anything and so far nothing has been found. Perhaps alien civilisations lack the technology to communicate over long distances – they may just be wasting their time! If they were to communicate to us, we would not get their message for a long time – it takes great patience!

If you would like to take part yourself you can join the SETI@home project. You can use your own computer to search for unknown and unusual signals from radio telescopes.

Writing

8 Focus Writing a description of finally making contact with aliens

- Explain the task.
- Allow Ss time to complete the task in class or assign as HW.
- Ss read out their writing to the class.

Suggested Answer Key
It finally happened! It was just an ordinary day and everything was quiet. Everyone was busy on various projects and the only sound was the scratching of pencil on paper. Then came the signal. Everyone went crazy. They were running here and there, telephoning, checking and double-checking. There had been many false alarms in the past but this was the real deal. What happens next is anyone’s guess. The signal will need to be analysed and answered and then – maybe – we’ll finally find that we are not alone in the universe!

Words of Wisdom

- Draw Ss’ attention to the quotation and build up a paraphrase on the board.
- Ss discuss whether they agree or disagree with the quotation in small groups.
- Invite groups to report back to the class.

Suggested Answer Key
A: I don’t think that it limits us to not search for extraterrestrials. There are so many other important things on our planet we need to focus our attention on such as environmental issues.

B: I agree these issues are important, but as human beings we have it in our nature to want to explore our surroundings such like the first explorers that discovered new lands and continents. We have already discovered almost everything on earth as far as lands and people so it is only natural that we look beyond out planet. etc

TAPESCRIP
Speaker 1: To be honest, I don’t really enjoy watching the news. All those wars, disasters just get me down and after a hard day at work, that’s something I don’t want.
Okay, I watch the bulletins like everyone else but why don’t they report something happy for a change, something to brighten our mood?

Speaker 2: No, I always switch over. These things happen so far away and anything that does affect me, well, I’ll know about it soon enough. I don’t need to be warned in advance. I want entertainment on the television not information; if I want information, I’ll read a newspaper.

Speaker 3: Well yes, but only the first few minutes. If I know it’s about to start, I’ll switch on. It’s all you need to know really. I mean who needs to know all the details? We fool ourselves that we’re informed but we never really get the complete picture. And anyway, I only have so much time in the day and there’s so much to get done at home.

Speaker 4: I watch it every night and sometimes in the morning. It’s interesting to see how a story changes over the course of a single day. Information leaks out and at the end we’re probably none the wiser. They tell us just enough but that doesn’t cover it for me. Listen to what they’re not telling us is what I always say!

Speaker 5: Well, I believe that it’s a sign of an educated mind to be — and want to be — informed. Society is not just me, my family and the people in my neighbourhood. What goes on out there has a very real impact on me and I’d be a fool to think it didn’t. If you don’t follow the events, you’re bound to get left behind!

- Ask Ss the question in the rubric.
- Allow Ss exactly three minutes to write on the topic.
- Ss exchange writing with a partner for peer correction.

Suggested Answer Key
Children can benefit from having a pet in many ways. First of all, there is the responsibility that comes when a child has to look after a pet. They will have to feed it, walk/clean it and make sure it is in good health. Secondly, from this responsibility, the child gets a deeper understanding of what it is like to be a parent in a position of responsibility. Thirdly, the child has either a playmate or something to occupy their time instead of watching TV. Lastly, having a pet is an education for any child in which they not only learn about nature but they also learn valuable life-lessons.

A These days, it seems that wherever you turn, you see or hear something in what has become the world’s lingua franca, English. Because of this, it has been suggested that all children should learn English from a young age. There are, however, both pros and cons to this complicated issue.

There are many reasons why learning English at a young age is a good idea. To begin with, children learn quicker and better than adults. Their minds are still developing and are receptive to new concepts. In addition, having another language when they leave school will be an incredible advantage in the job market.

On the other hand, there are those that say that learning another language as a child is useless. Firstly, many children will not need another language in their daily lives. Also, that children should be concentrating on their native reading and writing skills, not those of a foreign country.

To conclude, there are two very different sides to this controversial issue. It is very much a matter for the individual parents involved. But we should not forget the Czech proverb, ‘Learn a new language and get a new soul.’

B When was the last time you read a newspaper from front to back page? Not surprisingly, most people get what little they know about the world from sound bites on the television. It is possible, however, to use a newspaper as a sole source of information. As with most things though, there are advantages and disadvantages.

Many people consider a newspaper to be a convenient source of information. Firstly, it can go into depth on any subject. For example, it can look at the background of an issue from several perspectives. In addition, a newspaper can accompany you through the day. You can read it on the train, in the waiting room or even under the desk in the office.

In contrast, there are other ways to get informed. To begin with, television gets you the news far quicker than a day-old newspaper. Moreover, television’s ability to present images means the news comes to life in a way it could not in dead-tree format.

To sum up, there are differing opinions on the validity of newspapers with strong arguments both for and against. It is really a matter of how much you want to know and how much time you have to learn it.

_Telegraphy (from the Greek words ‘far’ and ‘write’) is the long-distance transmission of messages without physical transport of letters. Radiotelegraphy or wireless telegraphy transmits messages using radio. Telegraph messages sent by a telegraph operator using Morse code are known as a telegram or cablegram. Before long distance telephone services were available, telegrams were very popular. They were often used to send urgent information. In the late 19th century armies used a method of signalling called ‘heliography’. This involved using the reflection of the sun on a mirror to pass messages in Morse code. Naturally, they were reliant on the weather being clear and sunny. On a good day, it was possible to send a message over 30 miles! etc_

   Killer whales, dolphins and Baby seals can no longer hear and communicate with each other as well as in the past. This makes it harder for them to find a mate and/or feeding grounds. They may also become stranded. Sound blasts from military sonar cause bleeding to the eyes, ears and organs in whales and dolphins.

**Susan:** ... Ok, so I'll meet you at the café at six o'clock. There's a small chance that I might be a little delayed but I'll call you if that happens.

**Mike:** Oh, you can't, Susan. I haven't got a mobile phone, remember!

**Susan:** Oh yes, I always forget that. You know Mike, you really should get one.

**Mike:** Why should I? I've managed until now without one!

**Susan:** Yes, but everyone has one these days, Mike. Even my grandparents send me text messages now.

**Mike:** Well, not me. I like to be a bit different, you know that. And anyway, I can't think of anything worse than being contactable all the time.

**Susan:** Yes, but it's so inconvenient for everyone else. We can only contact you at home. Sometimes it takes me days to catch you when you're in!

**Mike:** Well, people managed without mobile phones in the past, didn't they? And you can always send me an email, remember. I check my mail every day.

**Susan:** Yeah, I guess so. But it would still be easier if you had a mobile phone. When I got my first one I wondered how I ever lived without it. And I just switch it off when I don't want to be disturbed!

**Mike:** Well, I still think I have a right not to have a phone if I don't want one.

**Susan:** Sure, but if you ask me you're being very stubborn. Mobile phones are a part of modern life whether you like it or not!

**Mike:** Ok, I understand the point you're making. I tell you what, I'll think about it, ok?

**Susan:** Cool! Hey, there's a mobile phone shop right next to the café we're meeting at! We can have a look tonight!

**Mike:** Don't get carried away, Susan! I said I'd think about it, remember!

**Susan:** Ok, ok, no problem! See you tonight!

**Suggested Answer Key**

**A:** So, we're agreed that we both want to learn Spanish this year? How about spending a month in Spain this summer? We could stay with a Spanish family.

**B:** I don't think that would be the best solution for us. It would cost far too much to fly over to Spain and I think we ought to learn some language before we go to the country.

**A:** Well, what else do you suggest?

**B:** We could buy a ‘teach yourself’ pack and teach ourselves in our spare time.

**A:** But, I don't think I would have the motivation to teach myself! Why don't we go to an evening class a few nights a week?

**B:** I wouldn’t be able to attend a course like that – I also have football training, remember! But we could find ourselves a private tutor and get a couple of lessons together every week.

**A:** That would be great!

**Suggested Answer Key**

**Wouldn’t it be great if we could speak every language in the world?** Scientists have suggested that in the future we might not have to learn a language at all but have a microchip planted in our brains. As with all technology, this has pros and cons.

There are many advantages to such a chip. To begin with, holidaying abroad would be made much easier. Whichever language you needed could be implanted into you at the travel agents. Secondly, business could be carried out without fear of mistakes in interpretation.

On the other hand, there are plenty of disadvantages. Firstly, this chip would be available only to those who could afford to pay for it. Also, language is but the bricks for the house; being able to use it skillfully is the home. Could the chip give us the ability to express ourselves well enough?

This is an issue that will have people arguing for decades to come. There is no easy answer but perhaps the chip might help people like the man who once said of a dictionary, ‘the plot was terrible but at least they explained all the words as you went along!’

In order to stimulate discussion and interest, ask Ss which page each picture is from. Then elicit other information (e.g. what the picture shows and what they think the unit might be about).

Suggested Answer Key
Focus Ss’ attention on picture 1.

T: What page is picture 1 from?
S1: It’s from page 122.

T: What can you see in picture 1?
S2: I can see a young girl and an elderly man.

Go through the rest of the sections with your Ss and point out that by the end of the module they will know how to perform the tasks listed.

Explain that the module has:
– a Literature section
– a Culture Corner
– an Across the Curriculum section
– a Going Green section

Ask Ss to look at the relevant pages and elicit what each section is about.

Suggested Answer Key

The Literature section seems to be about authors, books and literature extracts. This one (pp.126-127) is about Rudyard Kipling and shows us one of his poems, ‘If’.

The Culture Corner (p. 131) contains a webpage about university life in Britain.

The Across the Curriculum section (p. 132) looks at how small actions can change the world.

The Going Green section looks at different green issues. This particular one (p. 133) is about Dian Fossey and her work with mountain gorillas.

B: Sure, you can speak to me. My name is Rachel Henry and I’m the admissions advisor for the course. How can I help you?
A: Well … I saw the course advertised in the Education pages in yesterday’s Guardian newspaper and I wanted some more information.
B: I can send you a full college prospectus which will tell you about all of the courses that we offer.
A: Thank you. That’s great. Can I ask you a couple more questions?
B: Of course. Go ahead.
A: Well, it says the fees for this course are £1,500 per term, but your advertisement says there is a possibility of funding. How can I find out a bit more about this?
B: There are a range of government funding options available, such as loans and scholarships. All that information is included in the prospectus.
A: Oh, OK, that sounds great. Also, what qualifications do you need to get on the course? Are my school exam results important?
B: Well, we do take a look at your exam results, but we also consider your performance at the interview. We are just as interested in your attitude as your exam results.
A: Oh! That’s good to know! And how many places are there available on the course?
B: No more than about thirty. But we usually receive about sixty applications altogether.
A: I see. Thank you very much for your help!
B: You’re welcome. Actually, we’re having an open day on Friday next week. I would highly recommend that you come. It’s a great opportunity to have a look around the college, meet the course tutors and ask any more questions that you have. If you’re interested I can email you the details.
A: Oh yes, thanks. I’d definitely be interested in that. When is the closing date for applications?
B: The closing date is the end of January.

A  Dear Mr. Banville,

I would like to thank you for answering my previous email so promptly. I am writing this email to give you the information you requested about your upcoming talk at our school.

First of all, I would like to thank you for taking time out of your busy schedule. This is a superb opportunity for the students to meet a truly international sports star. Regarding the date of your visit, the evening of 12th June is more convenient for the students as there is an important match for the school team on the 11th.

The talk is for students that will soon finish their studies and either go to university or start a career. The age range of the students is 16-18 years old. Our school has a football team, a hockey team and a basketball team so if your talk could include something about these sports, we would be extremely pleased.

Apart from your sporting experiences, it would be helpful if you could mention how you got started as an athlete, your training schedule and what motivates you to be the best in your particular sport.

I would like to repeat how grateful we are that you are coming to our school. If you require further information, please do not hesitate to contact me.

Yours faithfully,
Max Morden

B  Dear Mr. Evans,

I am writing to complain about the Dawson Drama School. I recently attended a six-week summer acting course there and was very disappointed with the service offered.

To begin with, your advertisement states that the course is taught by full-trained professionals. This is not true as the standard of teaching was unsatisfactory due to the lack of experience of the professionals involved. To make matters worse, a large number of lessons were cancelled without any reasons being given.

The so-called ‘relaxed and pleasant environment’ mentioned in the advertisement turned out to be several badly-maintained studios that, even in the middle of a hot summer, were incredibly cold and permanently draughty. Similarly, the ‘comfortable accommodation’ was, in fact, unheated, cramped and had not been cleaned for a considerable length of time.

Due to the fact that the service did not live up to the claims of the advertisement, I believe I am entitled to a refund of some of the £1,500 I paid. I look forward to your prompt reply.

Yours faithfully,
Alexander Cleave

Suggested Answer Key
University life at Oxford University is pleasant. I spend a lot of time on campus attending lectures, studying in the library or having meals in the college dining hall. I meet my friends in the Student Union when I don’t have essays to write or exams to prepare for!
Writing Skills

Although I only have to attend ten hours of formal lectures every week, I keep fairly busy. There are also seminars and tutorials to attend, private research to do and essay deadlines to meet.

I live in student halls. This is good because you get to meet a lot of different people and we have formal dinners together in the college dining hall. But next year I’d like to live in a student house with my friends.

I get on well with my teachers, especially my tutor as we meet one-to-one and discuss everything together.

There are plenty of after-school activities to get involved in. You can join the university newspaper, drama club or canoeing club, just to mention a few. There are always parties you can go to – or concerts. I like to just hang out with my friends or go and see a band. The social life is very good – I especially like the theme nights at the Student Union.

Focus ➤ Writing a short article about the most prestigious university in your country

- Explain the task and check Ss’ comprehension by asking: What are you going to write? (a short article); What is the subject of your article? (the most prestigious university in my country); What must you include? (details about where students live, academic life, social life and so on).

- Allow Ss time to complete the task in class (with access to the Internet). Alternatively, set the task for HW and Ss may interview people to get information.

Suggested Answer Key

Moscow State University was established in 1755. It is a highly popular university. Currently, more than 40000 undergraduates and about 7000 postgraduates are studying there. There are more than 4000 professors and lecturers and every year you will find about 2000 international students coming to study there from all over the world.

Many students live in Moscow with their families but those who come from other parts of Russia and overseas live in student halls. Life in halls is fun. Students often socialise with each other - enjoy a cup of tea or some food together, play the guitar and sing popular songs. There are also many student clubs you can join, like the ‘KVN’ where you perform amusing sketches to entertain your lecturers and fellow students.

Life is not all fun, though! There are plenty of lectures to attend (which start as early as 7:45 in the morning!) and lots of assignments to complete – not to forget examinations!

Across the Curriculum – Citizenship

Objectives

Reading: a case study about a community volunteer; a list of actions to change the world (matching)
Skill – reading for specific information
Speaking: discussing taking action to change world
Writing: about an idea to change the world

Focus ➤ Explaining an equation

- Draw Ss’ attention to equation at the top of the page. Select a S to read it out to the class.
- Invite Ss to suggest ways in which small actions can change the world.
Across the Curriculum – Citizenship

Suggested Answer Key
Small actions when done by lots of people build up to become large actions and this leads to real change.

2 a) Focus ➤ Reading for specific information

- Elicit/Explain the meaning of the words ‘volunteer’ (someone who does work without being paid for it, because they want to do it) and ‘case study’ (writing that gives information about a person, group, or thing and their development over a period of time).
- Allow Ss time to read about Jacob and answer the questions.
- Check answers with the class. Encourage Ss to comment on what it must be like to be a volunteer.

Answer Key
Jacob volunteers at a retirement home for a few hours each week because he wants to do something to make the world a better place. Jacob feels that he is giving something and getting a lot back, too.

b) Focus ➤ Explaining new vocabulary

- Instruct Ss to read the case study again and deduce the meaning of the words in bold from the context.
- Ss check in their dictionaries and note down a synonym or example sentence.

Suggested Answer Key
volunteer: offer to do something without being asked and/or without being paid
home: accommodation especially designed/run for the retired/elderly
jokes: funny stories
get such a lot back: receive plenty in return
faces light up: expressions appear happier/more excited
wise: clever (with the experience of age)
community: people living in a particular area

3 Focus ➤ Matching actions and reasons and suggesting your own

- Focus Ss’ attention on the list of actions (Little Ways to Change the World) and the reasons for these actions.
- Explain the task.
- Ss answer individually and then compare answers with a partner.

Answer Key
1 B 3 A 5 D
2 E 4 F 6 C

Suggested Answer Key
Action — Walk or use public transport on your way to school/work.
Why? — You’ll not waste energy/pollute the environment and you’ll get fit at the same time.
Action — Plant one tree each.
Why? — Trees help combat pollution, are a home to animals/birds and are attractive to look at.

4 Focus ➤ Discussing the likelihood of taking certain actions

- Arrange Ss in small groups.
- Read out the rubric and select 3 Ss to read out the model answer.
- Allow time for Ss to discuss their answers.
- Monitor the activity, encouraging Ss to give reasons for their responses.

Suggested Answer Key
A: I would possibly buy fair trade products as that helps the poor in other countries.
B: Yes, that’s true and most supermarkets have fair trade products nowadays.
C: I would definitely throw my rubbish in the bin as litter is very ugly.
A: That’s true. I would definitely not give pay more at charity shops, mainly because I don’t buy things there.
B: Then you should definitely give your spare change to charity because most of the time it just builds up at home. That money could be used. etc
Across the Curriculum – Citizenship

5 **Focus ➤** Planning a project that could change the world and presenting it to the class

- Explain the task by reading out the rubric to the class.
- Allow Ss time to decide on a project and write a paragraph about it.
- Invite each group to present their project to the class. Vote for the best one.

**Suggested Answer Key**

1. Collect old clothes from friends, neighbours and relatives and give to the homeless.
2. Friends, neighbours and relatives as they would donate clothing.
3. The homeless would have better/warmer clothing to protect them from the cold.

**7 Going Green**

**Objectives**

Reading: an article about Dian Fossey (gapped text)

Skills — reading for text structure
- reading for cohesion and coherence

Vocabulary: adjectives to describe people

Speaking: a presentation about an environmentalist

1 **Focus ➤** Describing a scene

- Instruct Ss to close their eyes and listen to the recording.
- As the recording is playing, ask Ss the questions in the rubric (*Where do you think you are? What is happening? How do you feel?*)
- Invite individual Ss to share their answers with the class.

**Suggested Answer Key**

I am in the jungle and I hear the gorillas. I feel excited but also peaceful at the same time with the sounds of water running and nature all around me.

2 **Focus ➤** Building up a story from notes

- Focus Ss’ attention on the pictures and select a few individual Ss to describe them to the class.
- Elicit from Ss possible ways in which Dian Fossey could have made a difference to our world.
- Read through sentences A-E and explain any unknown vocabulary. Invite individual Ss to guess her story from the information given.

**Suggested Answer Key**

I see Dian interacting with the gorillas in the pictures. She seems to be able to communicate with them. She made a difference by helping us understand better these amazing creatures and fighting for their rights against being killed by poachers.

(note — you could also do this with leftover food)

I would definitely collect old clothes or shoes and take them out onto the streets for the homeless. In my house we have wardrobes full of good clothes that we no longer wear. The homeless are in desperate need of warm clothing to help them get through the cold nights. I could get all my friends, neighbours and relatives involved. I could even suggest it at the next school committee meeting.)
3 **Focus ➤** Completing a text; explaining new vocabulary

- Ss read the text and complete the gap-filling task. Remind Ss that there is one extra sentence that they do not need to use.
- Allow Ss time to explain the words and phrases in bold.
- Check answers with the class.

**Answer Key**

| 1 | 2 | 3 | B | A |

**Suggested Answer Key**

- **worked miracles**: was extremely effective
- **disabled**: lacking a physical/mental ability
- **save up**: keep money to use in the future
- **behaviour**: way of acting
- **earned their trust**: became their friend
- **met the same fate**: ended up the same way
- **declared war**: stated intention to fight
- **outspoken**: giving opinion(s) freely without worrying about offending people
- **target**: focus of attack
- **murdered**: unlawfully killed
- **buried**: put under the ground after the death
- **endangers**: puts at risk
- **extinction**: no longer in existence (as a species)

4 **Focus ➤** Choosing the best adjectives to describe Dian Fossey

- Read through the character adjectives listed in the exercise and check Ss’ understanding.
- Based on their reading of the text Ss tell each other in pairs the adjectives which best describe Dian Fossey and give reasons.
- Invite a few pairs to share their idea with the class.

**Suggested Answer Key**

- Dian must have been a very caring person because she spent her life helping disabled children and then wild gorillas.
- Dian must have been very patient because gorillas do not trust humans easily and gaining their trust must have taken a very long time.

5 **Focus ➤** Preparing and giving a presentation about an environmentalist

- Arrange Ss in groups and explain the task.
- Allow Ss time in class to prepare their presentations (providing Ss with access to the Internet) and then invite groups to present their information to the class. Alternatively, Ss collect information for HW and prepare and deliver their presentations in the next lesson.

Rachel Carson (1907 - 1964), an American marine biologist and nature writer, grew up on a small farm near Springdale, Pennsylvania. An avid reader at an early age, she began writing when she was just eight years old. She is best known today for her work ‘Silent Spring’ which led to a nationwide ban on the use of DDT and other harmful pesticides.

After studying biology at the Pennsylvania College for Women, she studied zoology and gained her master’s degree in 1934. In 1935 her father died suddenly and Carson was left to take care of her aging mother. Rather than study further (to obtain a doctorate), she took on a job at the U.S. Bureau of Fisheries. Carson also began submitting articles on marine life to newspapers and magazines. In 1952 she gave up her job to concentrate on her writing. Carson’s main subject was the dangers of pesticide overuse. She investigated many cases of pesticide exposure and found evidence to support the pesticide-cancer connection. Unfortunately, she developed cancer herself and died at the age of 56. In recognition for her work, Carson was awarded the Presidential Medal of Freedom - the highest civilian honour in the United States.

**Speaker 1:** My dream in life is to have a really successful business. I’m not expecting something as big or profitable as Microsoft of course—although don’t get me wrong, that would be great—just something that will allow me to work for myself rather than someone else. I love the thought of all my effort and energy being directed into something that I have created. And the enormous responsibility and challenge of being in control of something would thrill me!

**Speaker 2:** I’m a really artistic person and I just feel happiest when I am painting. I love the process of creating something from nothing and expressing on paper a thought or image that I have in mind. I would like to make a living as a professional artist. But I know how difficult it is to succeed. Very few artists earn enough to make a living from their art. But just maybe, if I am talented and lucky enough, I can do it.

**Speaker 3:** I want to get to the end of my life knowing that I made some kind of difference to an issue that was important to me….knowing that I did something meaningful. The issue I really care about is poverty. I think it is so wrong that we in the developed world have so much, and those in the undeveloped world have so little. I plan to join an organisation like the Red Cross to fight this injustice.

**Speaker 4:** I am not exactly sure what it is I want to do in life. All I know is that I want it to involve travel. Travelling is my one true passion. I think there is no better education in life and nothing more exciting than seeing other lands and cultures. I just can’t understand people who don’t want to see the world… who are quite happy to never leave their own country. Maybe travel writing or travel photography would be the perfect job for me.

**Speaker 5:** I love animals and it is my dream to be able to work for them. What I mean by ‘for them’ is I don’t want to be a vet or zookeeper or anything like that. I mean I want to try to make their lives better or safer. We hunt animals, destroy their habitats, keep them in cruel conditions. I want to do something that will stop human abuse of animals. I would love to work for the World Wildlife Fund.

Dear Pete,

It’s always good to hear from you. I see you’re as glad as I am to be finishing school. It’s been a tough year but it’s all over now!

You can imagine how I felt as the school bell rang on the last day. That night we all went out and celebrated. I’ll miss some of my friends but now I’ve got the time to do some of the things I always wanted to do.

Next year, I’m going to university. I am studying Italian so my holiday is hopefully going to be in Rome. I can’t wait to walk those historic streets and speak to the locals.

How was your brother’s graduation? Your parents must be so proud. What did he graduate from? What are his plans now?

Hope to hear from you soon. Take care.

Samantha

One person I really admire is Madonna. Born into a large Italian family, she first trained as a dancer. Today, she is best known for her success as a pop star, actress and producer. She has had more number one singles than any other female singer and she has won numerous awards for her work. She travels a lot, working in the USA and the UK and also finds time to do charity work and be a mother!

Madonna continues to be successful because of her ability to recreate her image. She is an important role model for teenagers. She keeps trying new things and never gives up. I would like to live such a full life as Madonna. She is an inspiration!

T: What page is picture 1 from?
S1: It’s from page 151.
T: What can you see in picture 1?
S2: I can see an ornate building.

Suggested Answer Key

paintings (p. 150)
(pictures which someone has painted) Which artist are these paintings by? What do you show? Which one do you like best?

a leaflet (p. 149)
(a little book or a piece of paper containing information about a particular subject) What is the leaflet about? Is it attractive? Have you ever been to the USA?

Go through the rest of the sections with your Ss and point out that by the end of the module they will know how to perform the tasks listed.

Explain that the module has:
— a Literature section
— a Culture Corner
— an Across the Curriculum section
— a Going Green section

Ask Ss to look at the relevant pages and elicit what each section is about.

Suggested Answer Key

The Literature section seems to be about authors, books and literature extracts. This one (pp. 144-145) is about Jonathan Swift and has an extract from one of his works, ‘Gulliver’s Travels.’

The Culture Corner (p. 149) contains a leaflet giving advice about what we should consider when we visit the USA.

The Across the Curriculum section (p. 150) looks at Art & Design and Paul Cezanne’s paintings.

The Going Green section looks at different green issues. This particular one (p. 151) is about Eco-Tourism and why it is important to preserve the places we visit on holiday.

- Elicit whether Ss agree or disagree with the quotation and ask Ss to justify their opinions. Ask various pairs or groups to report back to the class.

Suggested Answer Key

I agree with the quotation that mysteries keep us alive and in search of knowledge. Mysteries make life interesting and more exciting. I would not want to know everything that has happened as it is sometime fun using your imagination to understand what happened.

TAPESCRIT

Student: “... so would you recommend that I get the round-the-world ticket?”
Travel Agent: Well, that depends on what’s important to you. It’s not necessarily the cheapest option, but it allows the most flexibility. If you change your mind about where you want to go next, for example, or if you want to stay where you are for a bit longer, you can, without any extra cost - provided that there is a seat available on the flight you want, of course.
Student: Oh, right. Actually, that sounds like it might be the best option for me because I haven’t really made up my mind exactly where I’d like to go yet. So how much is that ticket?
Travel Agent: Well, for an eight-destination open ticket, it’s ...

2 You know, my husband is exactly the same as you. He flies, because he wants to see the world, but he’s scared stiff and feels nervous for days before each flight. I keep telling him that flying is the safest form of transport but it doesn’t make any difference. To tell you the truth, I used to love flying because it meant I was going somewhere nice, but these days I have to fly so often for my job that it really doesn’t thrill me anymore. I find it rather tedious in fact, especially when I’m flying with one of those budget airlines that don’t even show any movies or serve you a meal.

3 I’m been booking all of my business trips with this airline for years now simply because they have such a good reputation, but quite frankly I’ve been a bit disappointed with them lately. Don’t get me wrong - I’ve never had a problem with the flights being delayed or cancelled or anything, but I just get the impression that their customers aren’t so important to them any more. It all seems to be about money now. You know, serving a quick sandwich instead of a hot meal, cutting down the leg room in economy, only letting you take a small amount of luggage and then charging you more if you want to take more. It’s a shame, because they’ll definitely start losing customers if they carry on like this ...

Suggested Answer Key

*What happened to my crew and the space ship I have no idea. I awoke from a very deep sleep to see what appeared to be bright laboratory lights above me. I attempted to rise only to understand I was strapped down. I heard a strange noise like a buzzing and realised it resembled some kind of language. It was then that to my utter amazement I saw a small, not more then a few centimetres in size, human-like creature that was hovering above me and staring with its large colourless eyes at me. I bellowed out a moan and the creature flew back in astonishment.

Seconds later another of these human-like things ventured carefully above me and spoke with a gentle voice some bizarre sounds. Moments later other similar creatures appeared next to the first one and repeated this strange sound several times. I tried to break free from my restraints but understood that there was no point. I was dealing with a highly evolved alien species that probably surpassed me in both intelligence and technology.*

We had been floating aimlessly in space for days since losing communications with the space centre. The crew was weak as food supplies were running low. The worrisome part was our oxygen supply was diminishing and I had calculated only a day left before we ran out. We had to establish contact soon with home base or we would never find our way back to the space station. One the 5th of November, a strong gravitational force began pulling the ship in a strange direction. We could not fight it and the last thing I saw was a flash of bright light before the ship crash landed somewhere.

B Dear Editor,

Having been an avid reader of your travel supplement for many years now, I thought I would send in my recommendation for the perfect day trip, Buxton, an ancient spa town where I have spent some of my most pleasurable moments.

Situated in the heart of the Cheshire countryside, Buxton is delightful old English town with beautiful tree-lined avenues and the excitement of a big town combined with peacefulness of a country village.

Visit Buxton Opera House, home to an ever-expanding annual festival that almost every year gets more and more popular. Spend time in the Roman Baths and sweat off the hustle and bustle of city life. Eat a deliciously filling pub lunch and walk it off in the nearby forests while relaxing to the sounds of chirping birds in the trees and the gently splashing water in the streams.

I can whole-heartedly recommend Buxton for a fantastically relaxing day trip away from the worries and cares of office and work. Once you visit this warmly-inviting little town, you’ll have moments to cherish for the rest of your life.

Yours faithfully,
Sarah Kingsley

- Never forget to say ‘please’ and ‘thank you’.
- It is considered normal in business meetings and negotiations for people to yell and become angry and upset so don’t be offended.
- Do not stand with your hands in your trouser pockets; it is considered rude.
- People are often late in Russia and it is not considered rude especially in social situations.
- Always bring a small gift such as flowers or a dessert when invited to a home.
- Never refuse a drink or a toast as it is considered a rejection of the person offering.
- Do not show the soles of your shoes, it is considered impolite.

5 **Focus ➤** Writing a leaflet giving advice about good manners in your country

- Explain the task.
- Remind Ss to use their answers from Ex. 4 to write their leaflets.
- Allow Ss time to design their leaflets in class. Alternatively, set the task for HW.

**Suggested Answer Key**

**Visiting Russia? A few things to keep in mind …**

**Drink and Be Merry:** never refuse a drink or a toast offered to you by a Russian as they will see it as a personal rejection.

**Stand up Straight:** do not stand with your hands in your trouser pockets; it is considered rude.

**Keep your Feet on the Ground:** try not to show the soles of your shoes, it is considered impolite.

... and as in most countries saying ‘please’ and ‘thank-you’ is always appreciated and seen as a sign of politeness.

Be Serious: excessive smiling or laughing in public is seen by most Russians as strange as they are usually reserved and serious in public situations.

Call Ahead: unexpected visits are not usually done, so better to arrange appointments ahead of time.

Don’t be offended: Russian tend to yell and become angry or upset in business meetings and negotiations, don’t take it personally.

Bring a Gift: when invited to a Russian’s home always bring a small gift like flowers or dessert.

A: How does picture A make you feel?
B: A little bit frightened. It’s dark and there are trees all around.

A: I feel excited. I want to go and explore the castle.
B: What about picture B?
A: I feel calm and relaxed. It is a clear day and you can see far into the distance.
B: I feel tired when I look at it. There is a long road in the picture. It looks quite hot too.
A: What about picture C?
B: I feel happy. I want to visit the beautiful house and garden.
A: It makes me feel good too.
B: Do you like picture D?
A: Yes, I do. I feel like I am on holiday when I look at it. I want to explore the area and swim in the sea.

4 **Focus** Discussing Cezanne’s technique
- Explain the task by reading the rubric to the class.
- In pairs, Ss discuss Cezanne’s technique.

**Suggested Answer Key**
A: Cezanne has two points of focus in picture A – the trees and the house. When I look at it, I don’t know what to look at first. I feel drawn to the house because it is further away, but the trees are nearer so I can see them more clearly.
B: It’s a clever technique. In picture B I first feel like I am on the side of the valley and then I feel the distance to go before I reach the mountains.
A: In picture C I feel near and yet far away from the house. To get to the house I would have to walk across the large garden but the house is painted in sufficient detail for me to feel that it is quite close.
B: Picture D has a lot of interesting things in it – the trees, the village and the sea. They all grab my attention – the trees in the foreground, the village in the middle of the picture and the sea in the distance. Cezanne hasn’t wasted any space in this painting! etc

5 **Focus** Writing a short article analysing two paintings by Cezanne
- Explain the task and allow Ss access to the Internet/library to complete their writing.
- Monitor the activity and assist Ss as necessary.
- Alternatively, set the task for HW and invite individual Ss to read out their articles to the class in the next lesson.

**Suggested Answer Key**
- bridged the gap: reduced/got rid of the gap
- contribution: sth that you do or give to help make sth successful
- composition: the technique or skill involved in creating a work of art
My second painting by Cezanne is called ‘The Bridge of Maincy.’ The colours in this painting are much darker and less interesting. It is also a quiet, relaxing scene. The main thing depicted is the bridge that we can see in the centre of the painting. It is a low bridge but it is fairly long. In the foreground there is a river or pond. It doesn’t look very deep but there is a feeling of width as the water takes up nearly half of the painting. In the background there are some tall, green trees that are growing close together. I feel like I would easily get lost if I went walking there. etc

Suggested Answer Key
The first painting by Cezanne that I would like to describe is called ‘The House of Père Lacroix in Auvers.’ I chose it because of its warm colours. In the picture you can see trees in the background, a row of houses in the middle and some shrubs, flowers and a pond in the foreground. The houses are almost hidden because of all the plants and trees all around. You can see yellow flowers, the red roof of one of the houses and the orange leaves in the trees. It looks like a warm autumn day. The plants look very healthy as they have been left to grow undisturbed. The houses are tall but they are close together. Due to Cezanne’s use of perspective, they look spacious and cramped at the same time. The trees in the background are tall and thin. There is a great sense of height in this picture.

Suggested Answer Key

Tourists might cause damage to a holiday destination by walking in places they shouldn’t and damaging the surrounding area. They might also drop litter, write graffiti, or take artifacts home with them. They might not realise what they are doing is wrong, nor understand the extent of the damage they are causing.

It is very important to preserve places of natural beauty because we have an obligation to look after them so that future generations can appreciate them. The world is a beautiful place and it is a pleasure to look at it. Who wants to live somewhere ugly? etc

**TAPESCRIP**

“I’ve been a professional photographer my entire adult life. But I have been taking photographs ever since I was a young child. It was my father who encouraged me. He was a keen amateur photographer, and, knowing what an enjoyable pastime it was, he wanted to share it with both my sister and myself. My grandfather was also keen on photography, so you could say my father kept up a family tradition! My childhood is full of happy memories of my father and me going on weekend trips with our cameras. Looking back now, it was a wonderful way to spend quality time together.

The summer I turned fifteen, I won the Young Wildlife Photographer of the Year competition. My photograph, which I had taken on a family holiday to Africa two years earlier, was of a pride of lions eating an antelope. I remember I had sat for hours in the sun waiting patiently for the perfect shot. My father entered my photograph in the competition without my knowledge. He certainly did that! You can’t imagine my amazement when I found out I had won. That was the moment when I realised beyond all doubt what it was I wanted to do with my life. At fifteen, I knew a career in photography was for me.
In my senior year of high school, I applied to all the top photography colleges on the east coast. I chose one in New York and started there immediately after I finished school. In my final year there, I won a summer apprenticeship at the National Geographic Society. They must have liked my work because after I graduated, I was offered a job with them. Next month, I will have been working for them for two decades!

For me, photography is most definitely about art. Being able to appreciate colour, lighting, shadow and texture, for instance, will help you get the best shots. But equally as important are the technical aspects of photography. It’s not just a case of point and shoot. You need to know what type of camera, shutter speed, exposure, and so on and so forth, is going to capture your subject and the moment best. If you don’t have this technical knowledge, you can produce results you really like but without knowing why they worked or how to reproduce them.

Basically, professional photography is a lifestyle. It involves weeks - sometimes months - of travel on the road when you are on assignment. These long periods of absence can cause a strain on family relationships, although I am happy to say that I have never particularly had any problems of that nature. And for me, the opportunity to travel the world, to see places and things that most people can only dream of, makes up for any disadvantages. I never get bored in my profession. I have been in the deepest, darkest depths of the Amazon rainforest, trekked across the deserts of Africa, sailed the wild seas of Antarctica. I have stared into the eyes of a snow leopard and watched in awe as a million wildebeest cross the African plains. But out of all the things I’ve seen and experienced, I think the most important thing I’ve gained is a deep appreciation of the incredible wonders of nature and the beauty of our planet. Nothing compares to that."

When we talk about air pollution, we usually discuss the traffic on the roads. But what about planes? Flying can be just as bad for the environment and some people have suggested limiting flights. As with most issues there are both advantages and disadvantages.

If flights were limited then air quality would definitely improve. Because planes release a lot of polluting CO2 into the atmosphere, there should be some sort of control on the number of planes in the air. Also, flying uses up an incredible amount of fuel at a time when our supplies of fossil fuels are in danger of running out.

On the other hand, people say that we do not limit the number of cars on the road, so why should we place restrictions on the air. In addition, recent campaigns have led to
improvements in cars to make them less harmful to the environment, so why can’t this be done for airplanes?

There are no easy answers to this complicated problem. I believe we should not limit people’s freedom to travel but, on the other hand, we do need to protect our planet in whatever ways we possibly can.

Suggested Answer Key

A: I’m so pleased that we’re going travelling together this summer. There are so many exciting places we could visit! For example, going on a ‘Wilderness Survival’ course in Wales.

B: Wales sounds good, but I’m not sure about going on a Survival course - they probably wouldn’t give us much food!

A: I hadn’t thought of that! Well, where else could we go?

B: We could tour Ireland in a horse-drawn caravan. That would be different!

A: Yes, and uncomfortable too! I don’t like horses much, either! Why don’t we go trekking in the Scottish Highlands?

B: I like the idea of going to Scotland, but I don’t fancy trekking - I want to relax when I’m on holiday! Cruising the English canals might be fun!

A: I’ve always fancied going on a boating holiday! That’s a brilliant idea!

B: Excellent! So, we’re agreed.

The Plot

Hamlet — The Prince of Denmark, whose father the King dies and whose mother marries his uncle Claudius, who takes the throne.

King Hamlet — The King of Denmark and Hamlet’s father, who is murdered by his brother, Claudius.

Claudius — The new King of Denmark, who kills his brother, King Hamlet, and marries the Queen.

Gertrude — Hamlet’s mother, the Queen, who marries Claudius soon after King Hamlet’s death.

castle — Home of the royal family, where most of the action takes place.

ghost — The apparition of the dead King, who returns to tell Prince Hamlet the truth about his death and to urge him to take revenge on his uncle Claudius.

revenge — The act of avenging the death of King Hamlet. It will be the driving, motivating factor for Hamlet to kill his uncle, the King.

mad — Hamlet will pretend to be mad so that everyone will think he has lost his mind. In this way he will find out the truth about his uncle’s guilt without drawing attention.

stepfather — King Claudius becomes Hamlet’s stepfather by marrying his mother.

old school friends — Rosencrantz and Guildenstern are two of Hamlet’s old school friends. King Claudius asks them to spy on Hamlet in order to find out what troubles him, and, later in the play, they are commanded to escort him to England.

special play — Hamlet asks a group of actors to put on a special play for the court, that features a king being murdered in the same way Hamlet’s father was murdered.

murder — One of the underlying themes of the play, as Hamlet seeks to take revenge for his father’s murder by murdering his own uncle.

tragic end — The outcome of the story, which proves fatal for almost all the characters due to various plots inside the castle.

1 Hamlet thinks that his mother is disrespectful both to the recently deceased King and to her son. Gertrude should continue to mourn the death of her husband and not marry so soon, especially not Hamlet’s uncle.
2 There must be a serious reason for Hamlet’s dead father to appear as a ghost. He possibly wants to tell Hamlet about his death or about something that happened before he died that no one knows about.

3 Hamlet must be feeling lonely because he has lost his father, who was probably a stabilising force in his life. He is probably also confused as he finds it hard to understand why his uncle took the throne. He must be angry with his mother, even disgusted, since she betrayed him and his father and got married so soon after her husband’s death. Finally, he may be worried or even scared about the future of Denmark now that his uncle has a lot of power in his hands.

Think! Gertrude reveals no guilt in her marriage with Claudius after the sudden death of her husband, King Hamlet. This suggests that she might have been involved in the murder, especially since she hardly mourned her husband’s death before remarrying. Her behaviour is open to various interpretations, though. The affection she shows towards her son, for example, makes one doubt whether she is evil. She might have married Claudius to make up for the insecurity and instability King Hamlet’s death has caused her and the country as a whole.

1 Hamlet probably feels astonished, even shocked, to see his father as a ghost. He may also be worried or afraid that something bad has happened and is anxious to find out what it is.
2 Although astonished at first, Hamlet seems to be very angry when he finds out the truth about his father’s death, and also assured of his original suspicion that his father has been murdered.
3 Hamlet has actually started planning his revenge. He thinks that if he pretends to be mad, he will be able to find out what really happened and avenge his father’s death without anyone suspecting him.
4 Hamlet might confront his uncle and his mother about what happened, or he might confide in Horatio and ask him to help him. In any case, he will certainly start pretending to be mad, as he has planned.

Think! Shocked at the sight of the ghost, the guard accompanying Hamlet and Horatio expresses his fears that “Something is rotten in the state of Denmark”. Denmark is corrupt, infected by some mysterious force, well-hidden and pending. The feeling of anxiety established in the first episode is here confirmed by the appearance of the ghost, whose words reveal corruption through an effective symbolic image. The new King poured poison into the old King’s ear while he was sleeping in his orchard. Like the poison running through the old King’s body and eating him away, corruption is now oozing through the state of Denmark making it a decaying body.

1 Being a prince, Hamlet is by birth Ophelia’s superior. His position and responsibilities make it almost impossible for him to marry a girl who belongs to the common people. As a prince and a future king, he is responsible not only for his own well-being but also for the state’s well-being. This means that it is not just his own feelings that affect his choice of a wife but the state’s interests as well. In his case there are a lot of things that must be taken into account, of political importance mostly. Therefore, he may not be allowed simply to marry the woman he loves. This is Laertes’ and Polonius’ main concern and the reason why they don’t want Ophelia to be involved with Hamlet.

2 Hamlet’s rude behaviour is part of his plan. He tries to behave madly to fool everyone in the castle so that he can take revenge for his father’s death without arousing suspicion. He probably doesn’t trust Polonius either since he seems to be the King’s right-hand man.

Think! Ophelia is a young girl who appears to be innocent and even naive. She is easily led by the men she loves so she seems to have no control of her life. She is dependent on her father and brother, who make decisions for her without taking her judgment into account. She obeys both Polonius and Laertes to stay away from Hamlet, even though she has feelings for him, without the slightest objection to their guidance. She is so respectful of them that she won’t do anything against their will. After Hamlet’s frightening visit to her room, it is Polonius she runs to for advice. On the whole, Ophelia seems to be a weak character as she relies on men, who control her life. I don’t think I would act the same way as her. I would certainly respect my family and take their advice into consideration but I would also expect them to respect my feelings too. I would try to explain to them what I really wanted and how I felt.

The two men standing near Hamlet are probably Rosencrantz and Guildenstern. They’ve come to talk to Hamlet and find out what troubles him after the King commanded them to do so. 1 Rosencrantz and Guildenstern find Hamlet in a rather sour, bad mood. He confesses he is depressed and finds everything in this world meaningless. Although he is pleased to see his childhood friends at first, he is also suspicious of why they have come to see him.

2 Hamlet wants the actors to perform a play whose plot resembles Claudius’ murder. He also asks the actors to perform an extra speech which he will add to the play. Apparently he wants to see the King’s reaction and find out if he is really guilty.

3 Hamlet is blaming himself because he cannot find the courage to avenge his father’s death. Although he has a strong motive, he remains inactive, whereas the player has acted out his speech very passionately for no reason other than the play.

1 Hamlet says that the King and Queen are deceived because he is not really mad as they think. His madness is feigned as a means to an end — that of avenging his father’s death.

2 Tomorrow night is when the players are going to perform the play for Claudius to see. Hamlet expects that the murder taking place in the play will shake Claudius’ confidence and prove his guilt, as the murderer kills his victim in exactly the same way Claudius killed Hamlet’s father.

Think! Hamlet feels that the world around him is in a shambles. He feels confined to a place that is crooked and full of liars and villains plotting against him. Evil is latent everywhere and no one seems to be trustworthy. This is why Hamlet regards Elsinore and the whole of Denmark as a prison.

In the first picture, Gertrude is talking to Ophelia seriously, probably about Hamlet, while Claudius and Polonius are hiding. In the second picture, Hamlet and Ophelia seem to be arguing over something while Claudius and Polonius are watching. Perhaps the transformation in Hamlet’s character has affected Ophelia, who appears to be in distress.

1 When Hamlet wonders if it is better “to be, or not to be”, he poses a matter of philosophical discussion on the advantages and disadvantages of existence. Unlike previous parts of the play, where Hamlet was overwhelmed by emotion, here his speech shows logical reasoning. In an agonising way, he thinks that it is very difficult to decide between life and death. The miseries of life are such that no one is willing to bear them. If one died, he would end the torture. But then, we do not know what to expect in the afterlife, so maybe it is safer to bear the miseries we already have and are familiar with than take on others that are totally unknown to us.

2 Claudius will probably keep spying on Hamlet until he finds out what is going on. If he is still not convinced of Hamlet’s madness, he may send him away or even try to kill him.

Think! From the first episode, one cannot fail to see Hamlet’s disgust towards women. His mother’s betrayal has brought out in him a strong feeling of hatred that now takes the form of misogyny. Addressing Ophelia, Hamlet attacks all women. He feels they are unworthy of men’s affections because they cannot be trusted. He urges Ophelia to go to a nunnery, which represents the ultimate seclusion and isolation from society. Living as a nun, Ophelia would have to renounce her need for love and affection from a man. She would be alone with her thoughts and prayers. Being a nun means she would be restricted to a quiet, lonely life, deprived of earthly pleasures, and this, according to Hamlet, is the severe punishment she deserves.

In the first picture, there seems to be a play going on. Apparently, it is the one Hamlet has asked the actors to perform for the King. Everyone seems emotional or nervous about it. In the second picture, Hamlet looks prepared to kill Claudius, who is in some sort of emotional turmoil. Things don’t seem to be getting
any better as everyone seems to be more upset, but perhaps Hamlet will become more decisive and finally fulfil the promise he has made to his father.

3 1 Hamlet wants someone else to see Claudius’ reaction for proof, evidence of the crime he committed. He also wants someone on his side, someone he can turn to for support when he decides to take action. Horatio seems to be the right person since he is Hamlet’s dear and trustworthy friend, whose judgment he can rely on.

2 Hamlet’s reflective nature makes him delay action once again. His father died without having been forgiven for his sins as he didn’t have the chance to pray. Now that he is a ghost, he is doomed to burn in fires until his soul is cleansed. If Hamlet kills Claudius while he is praying for forgiveness, he will send his soul to heaven. This is hardly adequate revenge for the murder Claudius committed. Therefore, Hamlet finds it wiser to postpone action once again and wait until the time is right. If he kills Claudius while he is doing something bad, he will send his soul to hell and he will take his revenge.

Think! The actors’ performance certainly triggers a number of different emotions in the members of the audience. Gertrude’s reaction is of particularly great interest, as from the beginning of the play it is not clear whether she is involved in Claudius’ crime. Therefore, her behaviour in this episode is open to various interpretations. According to Rosencrantz and Guildenstern, Gertrude is “terribly upset”. Perhaps the performance brought about a sort of self-realisation for her. Maybe it made her see through the man she married to the murderer and villain he really was. Perhaps she knew beforehand, and the performance now made her realise her guilt and feel agitated. It could also be possible that she is still ignorant and her feelings are once more guided and shaped by Claudius’ feelings, since so far Gertrude has appeared rather weak, lacking a personality of her own and conforming to her new husband’s ideas and reactions.

1 Hamlet might seem disrespectful to Gertrude but his reason for behaving this way is very serious. He feels his mother has betrayed him like she has betrayed his father by marrying so soon after his death. Therefore, it is out of anger and despair that Hamlet appears disrespectful and not because of lack of morals. His indignation is what makes him call Gertrude “stepmother” showing her he no longer sees her as his biological mother but as a stranger.

2 After Hamlet’s accusations, Gertrude seems regretful for what she has done. She can’t bear listening to Hamlet anymore, because deep down she knows her son is telling the truth, and she promises not to reveal the secret concerning his madness. Her behaviour at the end of the episode shows she is regretful and willing to help Hamlet.

3 Maybe Claudius will try to kill Hamlet, or Hamlet will finally go after Claudius and kill him.

Think! The fact that Gertrude does not see the ghost is pivotal to the plot and the outcome of the story. Gertrude thinks that Hamlet is mad talking to himself, and this prevents her from clearly...
taking her son's side and acting against the King. Although she promises not to reveal Hamlet's secret, she seems to be at a loss, which serves Shakespeare's intricately woven plot. If Gertrude saw the ghost, she would believe Hamlet and become his ally. This means that Claudius would run a greater risk of being revealed and the whole story would probably turn out quite differently.

1 After Polonius’ murder, Claudius is increasingly agitated. His alarm turns into fear of Hamlet and the only way to feel secure is to get rid of him. He has to be careful, however, and not arouse suspicion, this is why he acts secretly once more. He wants Hamlet executed abroad so that people in Denmark will not find out about the King’s crime and turn against him. Claudius is again interested in maintaining his status and public image.
2 Hamlet obviously does not want to acknowledge Claudius because he hates him, so he ignores him. Either he is still pretending madness, so he affects not to notice Claudius, or he is too angry that Claudius is still alive to speak to him. In any case, he is still trying to plan a way to kill him, so his attitude towards his uncle can be nothing but hostile.
3 Earlier in the play, Hamlet was amazed by the actor’s passionate performance and expression of feeling for no apparent reason, just to act out a speech. Now, he is amazed by the willingness of an entire army to risk their lives for a worthless piece of land. He is impressed by their decisiveness and determination to achieve their goal, no matter how insignificant it is compared to his. Fortinbras’ army, like the actor earlier, makes Hamlet blame himself for delaying to carry out the task he has to perform. Twenty thousand men are prepared to die for a tiny piece of land, and he, that has a father killed, remains inactive. This realisation is what finally strengthens him and makes him at last promise to take revenge.

Think! It is not the first time Shakespeare has used a powerful symbolic image to get his message across. Here he chooses to use illness and conveys the King’s agitation most vividly. Hamlet is like a fever in Claudius’ blood because, just as a fever burns and tingles and causes one to feel uneasy and uncomfortable, Hamlet is disturbing Claudius’ peace. After the actors’ performance the King knows his secret is revealed. His fears of Hamlet have now been confirmed. Hamlet is no longer a potential threat, but rather an imminent danger, rooted in Claudius’ system and making him feverish.

1 Laertes returns to Denmark because he has found out about his father’s murder and wants to take revenge by killing the perpetrator.
2 Ophelia loses her mind because of sorrow after Hamlet kills her father. As illustrated earlier in the play, Ophelia loved and respected her father deeply so his death must have affected her greatly. Apart from that, she is already depressed because Hamlet has rejected her recently and because he appears to have gone mad.
3 Claudius’ position as King has already started weakening. His main concern now is to maintain his power, and it is exactly this concern that proves him to be most murderous. To start with, he is extremely worried about the people’s reaction to all the recent tragic events. His worry soon turns into fear when the people call out Laertes’ name and wish him to be the King. Claudius’ first step is to calm Laertes down and assure him he is not guilty of Polonius’ death. This way he makes him trust him and takes him to his side as an ally. Previously, Claudius didn’t hesitate to arrange Hamlet’s execution in England. Now that his plan has failed, he doesn’t hesitate to arrange Hamlet’s death inside the castle. The King is so crafty that he also draws up a back-up plan: if Hamlet does not get killed by Laertes’ sharpened and poisoned sword, he will be killed by poisoned wine. Claudius does not bother to worry about the victims that accumulate around him. He is only concerned about the threats to his power.
4 Hamlet will probably be invited to a duel with Laertes, but before that he will find out about Ophelia’s death.

Think! The way Ophelia’s death is presented in this episode creates the impression that it was an accident. According to Gertrude’s account, while Ophelia was on a willow tree, hanging her flower garlands, a branch broke and she fell down into the river. However, judging from the story so far, the possibility of Ophelia’s death being accidental may not seem very strong. Ophelia is very sensitive and emotional as a character, and all of a sudden she finds herself confronted with two devastating facts? her father’s death and Hamlet’s rejection and exile. These incidents are serious enough to lead her to depression and suicide, especially because of her fragile nature; therefore one cannot avoid thinking about this option when pondering on the matter of Ophelia’s death.

1 Hamlet has just returned to Denmark and met Horatio. The two of them come across the gravediggers while they are walking through a graveyard on their way back to Elsinore castle.
2 The gravediggers think the woman’s death was suicide, and people committing suicide cannot have a proper burial. However, the fact that she was someone important, that is of a wealthy or influential family, is an advantage for her. The priest will overlook the suicide and give her a proper burial.
3 They find Yorick’s skull, who used to be the court jester when Hamlet was a boy.
4 Hamlet knew Yorick and he loved him dearly. Yorick used to carry him on his back and entertain him with jokes and songs. Hamlet remembers him quite fondly and seems to miss his jovial personality. On the other hand, he feels disgusted and appalled at how Yorick ended up, pondering that this is every man’s fate.
5 They come in a funeral procession. They are going to bury Ophelia.

6 Laertes does not like the priest’s comments regarding Ophelia’s burial. The priest wants a shortened service as he thinks Ophelia committed suicide. He believes that instead of having prayers read to her, she should be hit with stones. Laertes loved his sister too much to agree with the priest and gets furious at his words. He cannot accept his beloved sister’s death, which happened right after his father’s death. Laertes is angry with Hamlet, whom he considers responsible, and he takes his anger out at the priest.

1 The gravedigger is very precise and uses the right word at the right moment. Although he is socially inferior to Hamlet, his speech proves to be very witty.
2 Laertes is sending good wishes to his dead sister because she was pure and virtuous, and violets are a symbol of these qualities. He hopes that she will be as pure in death as she was in life.
3 From the moment Hamlet establishes eye contact with one of the gravediggers, he appears to be very respectful towards the dead as he does not approve of the gravedigger’s lightheartedness. He gets annoyed when he sees the man singing merrily and throwing two skulls up in the air, as he thinks that this shows disrespect. He believes that the dead deserve the same respect as the living since they used to be among them once. Later on, when he sees Yorick’s skull, Hamlet seems to be awestruck as he realises a universal truth: no one can escape death.

Think! The moment Hamlet sees the funeral procession, he urges Horatio to hide and watch silently. His reaction is quite reasonable, if not expected, since this is a crucial moment for him. He has just returned to Denmark from his short exile and Horatio has gone to meet him. While Hamlet was away, there were new developments which he is not informed about, and he must find out before he visits the castle. Moreover, the fact that Claudius is plotting against Hamlet is something that Hamlet is aware of, so he must be cautious. Now that the King’s crime has been revealed, Hamlet knows Claudius is afraid and wants to get rid of him. Sending him away to England was the King’s first measure of protection, which failed to prove effective, since Hamlet managed to get back. The King is bound to come up with another plan; therefore, Hamlet must be careful.

1 Although Rosencrantz and Guildenstern could not have known about the content of Claudius’ letter to the English King, they are guilty of spying on Hamlet and of contributing, even without knowing it, to his death. This justifies, in a way, Hamlet’s desire to take revenge on them. On the whole, they are Claudius’ pawns lacking a personality of their own, since they always do as they are commanded.

2 Hamlet’s attitude towards Laertes changes at the end of the episode. He regrets having been violent to him since he now feels they have something important in common. They both want to take revenge for their fathers’ deaths. This is what brings him closer to Laertes, whose determination strengthens Hamlet too and makes him ready to take action. Therefore, what Hamlet will probably do next is fulfil the promise he has given to his father.

Overview

(Suggested Answers)

1. The conflict of man versus man is always prevalent throughout Hamlet. All characters plot against each other and want to take revenge on others. Some outstanding examples are Claudius’ and Hamlet’s hatred for each other as well as Laertes’ and Hamlet’s duel. The Norwegian King’s plans of war are also indicative of the conflict of man versus man. The conflict of man versus himself is equally prevalent throughout the play, mostly represented by Hamlet’s inner struggle. His ambivalence toward action, his indecision and self-reproach show he is at war with himself. Finally, the man versus nature conflict reveals how weak man is opposed to nature. When Hamlet meets the ghost at the battlements, Horatio warns him about the sea and the cliffs, which might prove dangerous. Death is also a proof of the control the natural order of things has over man, as we can tell from Ophelia’s drowning and Hamlet’s awe in the cemetery.

2. Throughout the play, Hamlet appears to be more reflective than active as a character. His thoughtful nature makes him always delay action, a policy which proves instrumental in the outcome of the story. Hamlet does not find the courage to take revenge for his father, even when the opportunity is right before him. The fact that he constantly delays killing Claudius seriously affects the plot of the story, since it results in a series of fatal events which would have otherwise been prevented. The first time he decides to get over his indecision he ends up acting rashly and kills Polonius, whose murder triggers conspiracy and plotting inside the castle. If Hamlet was active from the beginning, perhaps there wouldn’t be so much bloodshed and the story would not end so tragically.

3. The characters that betray or disappoint Hamlet are:
   - **Claudius** – He killed Hamlet’s father and married his mother.
   - **Gertrude** – She hardly mourned her husband’s death and hastily married Hamlet’s uncle.
   - **Rosencrantz and Guildenstern** – They follow the King’s commands and spy on Hamlet.
   - **Laertes** – He joins Claudius and plots with him against Hamlet.
   - **Polonius** – He spies on Hamlet.

   **Ophelia** – She betrays Hamlet by losing her faith in him.

   All the above characters make Hamlet feel disillusioned and disappointed. They make him feel confined in a prison and the only way to escape is by avenging every traitor. This brings about feelings of hatred and disgust, which turn out to be fatal. The only character who stands by Hamlet throughout the play is Horatio. He accompanies Hamlet to the battlements and warns him about potential danger. He takes an oath not to betray Hamlet’s secret. He watches the King’s reaction during the actors’ performance in the castle and assures Hamlet of Claudius’ guilt. Horatio is the one Hamlet confides in when he comes back from the journey to England. Finally, Horatio proves to be most loyal when he expresses his wish to drink the poisoned wine in order to die with his lord. He is the only one who can alleviate Hamlet’s suffering and distress and make him calmer and more reasonable.

4. Both Ophelia’s and Gertrude’s deaths are accidental, which makes both women victims. Ophelia died after Hamlet renounced his love for her, in his attempt to appear mad, and after he killed her father, mistaking him for the King. Gertrude died after she drank the poisoned wine Claudius had prepared for Hamlet. Therefore, the men who they both trusted so blindly and heavily depended on caused the two women’s deaths. However, their different character also determines and differentiates the way each one died. Although it is not clear whether Ophelia accidentally drowned or committed suicide, her innocent romantic nature makes her death appear to be innocent and romantic as well, as the young woman had been emotionally charged before she drowned. Gertrude, on the other hand, is in a way more responsible for her tragic end because throughout the play she lacked the courage to face the truth.

5. Whether Hamlet would have made a good leader if he had lived is ambiguous, judging from his actions throughout the play. On the one hand, what mostly characterises him as a person is his indecision and lack of courage, as he tends to be reflective rather than active. An indecisive and inactive leader is certainly not one to trust and depend on in times of crisis, when people need someone to encourage and motivate them to take action. On the other hand,
what also distinguishes Hamlet is his morality and ethics, elements that form an integral part of a good leader's personality. Regardless of whether they can counterbalance the lack of bravery, they contribute to a country's well-being since they safeguard people against corruption and dishonesty.

6. The castle of Denmark is a “prison” full of plotters and spies. The first one to start spying is the King himself, who asks Rosencrantz and Guildenstern to watch Hamlet closely and find out about his strange behaviour. Later on Claudius and Polonius spy on Hamlet and Ophelia when the two of them meet. During the actors’ performance, Hamlet and Horatio spy on Claudius to see what his reactions are and immediately after that Hamlet, “hovering in the shadows”, spies on Claudius while the latter is praying. When Hamlet meets Gertrude in her room, Polonius hides behind a wall hanging and listens to their conversation. After Polonius’ murder, Rosencrantz and Guildenstern are again commanded to accompany Hamlet to England and see that the English King has Hamlet executed. Finally, in the cemetery Hamlet and Horatio hide back and watch as the funeral procession enters.

On Hamlet’s part, one may say that spying is justified since he has to protect himself against the King’s plotting. In every other case, however, spying indicates an evil act that can only have tragic consequences.

7. Hamlet represents the archetype of the modern hero. Apart from being the most easily recognisable Shakespearean hero, he is also the most contemporary one. He is a character people of today can identify with, as we face the same issues and share the same ambivalences. What troubles Hamlet is also what concerns modern people, as his problems are situated in the context of family and state. Loss of a parent, remarriage, betrayal, depression, lack of morals, war, political ambition, corruption, wickedness, friendship, honesty, plotting, revenge are issues that make Hamlet remarkably modern as a character.

- An alternative title for the story could be: Hamlet’s Revenge.
- A different ending for the story could be that Hamlet kills Claudius and becomes King; he marries Ophelia and sends Polonius somewhere to live as a hermit. This is a happier ending than Shakespeare’s as justice is served and Hamlet’s mother is free from her guilt and dishonour.
- My favourite character in Hamlet is Horatio because he is a loyal and supportive friend who stays out of trouble but remains close to Hamlet in his time of need.
- I dislike Claudius because he is evil, conniving and power hungry; he will stop at nothing to get what he wants. He has killed his own brother and is after his own nephew too. He is so calculating and greedy that he deserves to die brutally.
- The story teaches us about loyalty and honesty and also about the lack of these morals. It is also concerned with a major issue, prevalent in every society throughout history that of political corruption and excessive ambition.

Back in 1925 there was a family of landowners in rural Ireland. It was a poor underdeveloped country where land was still the chief means to financial freedom. The family were the Careys, and young James was the only son. His father, whom he loved dearly and had always been very close to, had just died under mysterious circumstances, and his mother had quickly remarried a man who had offered her financial security as long as he controlled both her and her estates. Therefore, young James had lost everything his father would have left to him. His new stepfather, who was not so kind and generous, even though he spoke to others about his love and fondness towards his stepson, now ordered him about. James, who was still mourning his father’s death, remained distant and somewhat cold towards his stepfather and his mother, for remarrying so quickly.

One day not so long after his father’s death and mother’s remarriage, one of James’ friends, Peter, told him about something he had uncovered somewhere in a remote area of the farm. He took James to see what appeared to be a murder weapon that had recently been used, judging from the blood on it. Immediately James
and Peter realised that the father’s death must have been due to murder rather than natural causes, as it was first believed. James started to contemplate who might have done this to his father. He became very troubled and neglected his life and people around him. His depression became so marked that one day his stepfather openly questioned him about it and they got into an argument. James rashly accused his stepfather of having a hand in his father’s death and keeping what was rightfully due to him. By the manner in which his stepfather spoke and treated him, it seemed obvious that he hadn’t been as innocent as he had made everyone believe.

One night James had a dream in which he saw his stepfather murder his father. He told his friend, Peter, who also didn’t trust the new person in James’ life. He urged James to approach his mother with what he knew. James’ mother brushed off his accusations, telling him they were nonsense. Then one day a near fatal accident occurred on the farm, which almost killed James. When his friend looked at the evidence at the scene afterwards, he informed James and they both agreed that something needed to be done quickly or James’ and his mother’s life might be in danger.

James and Peter decided to go to the local constable, who listened to them but also brushed it off as nonsense, as James’ stepfather was a pillar of society and they had no real evidence either. They realised that without something to connect the stepfather with the death of the father they could do nothing. One evening, as James’ mother began to contemplate the possibility that her husband might have been murdered, she took several sleeping pills to help her calm her nerves so she could sleep. The stepfather noticed this and slyly threw extra pills in the water when she wasn’t looking; he then woke her up to have her take more in the middle of the night, when she was too groggy to be aware of what was happening. James had a strange feeling and went to his mother’s room, just in time to see what his stepfather was doing. Catching him in the act, he rushed in to save his mother, but confronted his stepfather. They quarrelled, as the stepfather tried to fake a story, but James carried his mother out of the room and to the local doctor.

When the constable became aware of this new evidence, he took action by accusing the stepfather of attempted murder against the mother. While in custody, the stepfather admitted that he had murdered the father, remained in jail throughout his trial and was subsequently incarcerated for life. James’ mother recovered and returned to the family residence to see her son regain control of the family estate.

**Topics For Further Discussion**

**(Suggested Answers)**

**Episode 1**

1. Claudius takes great pains to balance the situation to his benefit by using his words very carefully. On the one hand, he mourns his brother’s recent death and on the other he celebrates his marriage to his dead brother’s wife. These two contradictory facts are likely to cause public disapproval. However, Claudius aims at two things: appealing to popular sentiment, by remembering his brother, and proving that he is ready to take on his new role as King, by marrying the Queen. Moreover, he appears to take decisive action by securing Denmark’s safety against Norway. Regardless of whether he makes a good or bad impression, Claudius certainly appears to be confident and in command.

2. The kind of balance Claudius tries to achieve is unnatural. Throughout his speech he uses contradictory words and ideas. Even if the common people are convinced, because they need something to believe in after their old king’s death, it seems unlikely that Hamlet will be convinced too. To him, it is unthinkable how the sorrow of losing a brother can be balanced with the happiness of marrying a dead brother’s wife. When Claudius assumes a fatherly role toward him, Hamlet’s disbelief in the new king is even greater. He knows that the real motive behind Claudius’ affection and advice is to keep Hamlet under control since he is the legitimate heir to the throne.

3. Hamlet feels devastated by his father’s death and betrayed by his mother’s remarriage. On the one hand, his deep sorrow and disgust make him feel that the world is not worth living in. On the other hand, his mother’s dishonesty affects his opinion about womanhood in general. The way he reacts reveals a highly intelligent and particularly sensitive man, the only honest character in the royal court and the only person of high morals, who feels offended by injustice and dishonesty.

4. The atmosphere presented at the beginning of the episode is rather ominous. There is a general sense of uncertainty and anxiety as a beloved king has died and the throne has been inherited not by his son but by his brother. There is still grief for the old king’s death, and the presence of a new king who lacks...
experience cannot guarantee a secure future for the country. This threatening atmosphere is heightened at the end of the episode by the ghost's appearance. The ghost indicates that something about the old king's death has upset the balance of things. It shows there is something wrong and unnatural in Denmark that makes the country's future dark and frightening.

**Episode 2**

1 Hamlet strongly disapproves of Claudius' behaviour and criticises it. The fact that the King is celebrating instead of mourning his brother's death is humiliating not only for him but also for the country he rules. It is a sign of thoughtlessness, which makes Denmark and its people seem shameless and corrupted. The bad impression Hamlet has of Claudius at the beginning of the story is gradually getting worse and eventually turns into hatred when the ghost reveals that the old king was murdered by the new one. It is only natural for a son who has lost a father so unjustly to have feelings like these.

2 From the beginning, Horatio appears to be an educated, intelligent person. He is realistic and has good judgment, as he estimates things before taking action, which contrasts with Hamlet's tendency to take rash decisions. Horatio warns Hamlet about the possibility of danger when they see the ghost and urges him to be careful. Moreover, he proves to be a loyal, reliable friend. He accompanies Hamlet to the battlements as he is concerned about his friend's safety. When the ghost disappears, Horatio is very worried about Hamlet and takes an oath not to reveal anything to anyone. On the whole, Horatio seems to be more practical whereas Hamlet tends to have a more romantic approach to things.

3 Hamlet seems extremely sensitive to the issue of his mother's remarriage. The fact that it's hardly been two months since his father's death and she has married again, and to his uncle, makes Hamlet feel offended and betrayed. His special bond with his mother has broken and his hurt feelings have turned into disgust and even hatred for her. He thinks his mother is evil and he doesn't seem to differentiate her from the villainous King. His father's ghost, on the other hand, appears more sympathetic towards Gertrude. It doesn't want Hamlet to make her suffer because it believes that deep down she is aware of her fault, and this is adequate punishment.

**Episode 3**

1 Laertes respects and loves his father Polonius. Before he asked the King's permission to return to France, he had asked his father's, and now that he is leaving he has been given his father's blessing and advice. This proves a strong relationship between them. Similarly, Hamlet holds a great respect for his dead father, whose death he has sworn to avenge. However, Laertes' family state is healthier than Hamlet's, as Laertes shares a strong bond with both his father and his sister. The death of Hamlet's father, on the contrary, has created a state of loss and alienation. Hamlet's attitude towards his mother has changed dramatically and Claudius will never take the place of his real father.

2 As far as Ophelia is concerned, Polonius appears to be caring and protective, proving that there is a strong bond between father and daughter. However, he is in a position of authority over Ophelia and treats her as though her judgment and her feelings are irrelevant and insignificant. Polonius is an influential and trusted person in the royal court, as his encounter with the King and Queen proves. He is present when Claudius hears the good news about Fortinbras and he does not hesitate to confide to the King and Queen that Hamlet is mad because of his daughter. However, he takes care to be likeable to the King and Queen, and by doing so he appears both intelligent and cunning. This is also obvious in his encounter with Hamlet, whose speech makes Polonius doubt his madness.

3 As the play develops, Claudius seems to lose his initial composure. Underneath his façade of confidence lie nervousness and fear. The King is deeply concerned about Hamlet, who he sees as a threat since he is the legitimate heir to the throne. Therefore, Claudius' position as King is shaky, and he must take pains to maintain his power. To accomplish this he does not hesitate to use Rosencrantz and Guildenstern, two supposedly dear friends of Hamlet, and actually turn them into spies. Hamlet's sudden change, now that he is pretending to be mad, can prove dangerous and must be dealt with.
Episode 4

1 Rosencrantz and Guildenstern are manipulated by the King so that he can achieve his goal. This makes them seem very weak as characters. They lack personal will and initiative and are turned into pawns in Claudius’ game. Their blind obedience to the King makes them look servile, and their weak personality is also evident in their encounter with Hamlet. They seem afraid to speak for fear that they might say something wrong and, when Hamlet uncovers their real motives, they change the subject of discussion. Rosencrantz and Guildenstern are so alike that they appear entirely undifferentiated from each other throughout the play.

2 Throughout the play Hamlet struggles to put his desire for revenge into action. His indecisiveness and lack of courage are closely linked to his thoughtful nature, which prevents him from taking action. At the end of this episode he is impressed by the actor’s passionate acting and emotional speech over something imaginary, just a play. This is what makes Hamlet overwhelmed with frustration. He cannot accept the fact that he, who has a strong motive, remains inactive while the actor shows such passion for nothing, just a play. This incident causes his frustration to eventually turn into lust for revenge for his father’s murder.

Episode 5

1 Immediately after his encounter with the ghost, Hamlet starts putting on a show of madness to hide the fact that he is plotting against his uncle. However, his conversation with Ophelia makes one wonder if he is simply pretending. His unstable behaviour is so passionate that it does not seem fake at all. Hamlet says the opposite of what is true and contradicts Ophelia. His hatred for his mother has made him despise women in general and use hard language against them. He accuses women of exploiting and fooling men and tells Ophelia she must become a nun and not a bride. Hamlet’s rage leaves Ophelia totally devastated and his madness is too convincing to seem fake.

Episode 6

1 Horatio sharply contrasts with Rosencrantz and Guildenstern as far as friendship is concerned. He is a true friend, always willing to help Hamlet, who trusts him completely. He is honest and moral, sharing Hamlet’s sense of injustice caused by the King, and very reliable due to his good judgment and advice. Rosencrantz and Guildenstern, on the other hand, do not deserve to be called Hamlet’s friends. In reality they are his spies guided by the King. They are such weak characters that they can be easily manipulated; therefore they are the perfect means for Claudius to implement his plans.

2 So far Claudius has been presented as a calculating, ambitious politician manipulating others to stay in power. In this episode, though, he shows signs of human feeling as he is filled with remorse. This is the first time he has realised and acknowledged his guilt. It is the first time he has appeared not as a monster but as a person regretting his sins and asking for forgiveness. It is impossible not to feel sorry for him as his act of kneeling and praying reduces him from a king to a common man. However, his change is only superficial. Deep down he is still the man he used to be. Even when asking for forgiveness, he is not willing to abandon the prizes of his crime: his crown, his ambition and his queen, and this makes him all the more immoral and evil.

3 The play performed at the court is what determines the course of events for the royal family. Both Claudius and Hamlet are strongly affected by it, though in a different way. Claudius is badly shaken after the performance, as his fears for Hamlet are confirmed. His composure breaks down completely and his guilty conscience even fills him with remorse. He can’t stand witnessing the exact representation of his crime. He feels humiliated to have his secret revealed this way and blunders out of the room in panic. His first priority at the moment is to send Hamlet away. Hamlet, on the other hand, has had his suspicions of Claudius confirmed by the play. The King’s reaction has proved his guilt, and this has made Hamlet determined to fulfil his father’s wish and take revenge.

Episode 7

1 As the scene of Hamlet’s encounter with his mother progresses, Gertrude goes through several states of feeling. At the beginning, she is very strict towards Hamlet, addressing him in a proud, hostile way and accusing him of offending Claudius. Her anger soon
turns into fear and panic when her son raises his voice threateningly. Immediately after that, she becomes shocked and upset when Hamlet kills Polonius, and then desperate when he criticises her strongly for showing disrespect to his father by remarrying. Next, Gertrude seems disbelieving when Hamlet talks to the ghost, and, finally, she appears regretful and willing to take her son’s part by promising not to reveal his secret. This sequence of different feelings indicates that Gertrude’s reactions and behaviour are strongly affected by the men surrounding her, a fact that makes her a rather weak character and, therefore, not very trustworthy.

2 Gertrude’s encounter with Hamlet shows her inability to think and feel on her own, and her tendency to let men guide her emotions and actions. This has been obvious since the beginning of the play. Whenever we see her express her opinion, her words echo Claudius’ beliefs. She seems not to have a personality of her own but, instead, to exist through men. This makes her a similar character to Ophelia, who is also heavily dependent on men and led by them. However, Ophelia’s much younger age makes her appear more innocent and naïve whereas Gertrude seems to be more of a victim and much weaker as a character.

3 Hamlet’s thoughtful nature is what troubles him throughout the play since it prevents him from taking action. His tendency to reflect on things and be passive rather than active is what determines his personality. He is always faced with the dilemma of thought and action and never manages to solve it. He can be decisive and indecisive, kind and cruel, calm and outraged at the same time. His trouble choosing between thought and action is illustrated in this episode by Polonius’ death. Hamlet hesitated to take revenge and kill Claudius even when the opportunity was before him. Now that things are not so clear, he chooses to act without thinking and ends up killing the wrong person.

   **Episode 8**

1 As she is guided by men, Gertrude adopts Hamlet’s point of view in her encounter with him and promises not to betray his secret. She seems willing to take his side and help him after realising her mistake to marry Claudius. Exactly the same reason, her dependence on men, makes her break her promise the moment she sees Claudius. This time she shares the King’s point of view, according to which Hamlet is dangerous, and she presents her son as a madman who killed innocent Polonius. Gertrude seems to act according to her interest each time but by revealing her son’s secret she pushes Claudius to plan Hamlet’s execution.

2 This episode highlights Claudius’ evil character, as he proves to be a conniving king only interested in fulfilling his political ambitions. The first thing he is worried about when Gertrude tells him about Polonius’ murder is his own safety. Instead of worrying about his wife, who could have been in danger, he only cares about himself, thinking that if he had hidden instead of Polonius, he would be dead now. Also, the moment he finds out about this incident, he starts thinking of a way to cover things up so that it doesn’t look like a political crisis to his people. He immediately sends Rosencrantz and Guildenstern to find Polonius’ body and loses no time in getting everything ready for Hamlet’s journey to England. The real reason why he sends Hamlet away is because he feels threatened by him, and not because he wants to protect him. However, what mostly signifies Claudius’ wickedness is the command he gives the King of England to kill Hamlet.

3 So far Hamlet has been considered a sensitive young man whose reflective nature prevents him from taking action and, therefore, avenging his father’s murder. However, he now appears to have a violent side. Polonius’ death represents a rash, murderous action like Claudius’ one when he murdered Hamlet’s father. Hamlet, of course, did not commit murder out of ambition like Claudius, and Polonius was not totally innocent like Hamlet’s father. However, the result is the same: death that costs someone their father. Even after the crime, Hamlet does not seem to feel guilt or remorse. Instead, he behaves very excitedly and anxiously. He foils Rosencrantz and Guildenstern, does not hide his hostility toward Claudius and sounds happy to be leaving for England. His ironic wit and his excitement are combined in such a way that he appears very close to real madness.
Episode 9

1 A country’s well-being is affected by those who govern it. Whether the people are going to live in prosperity or misery highly depends on those in power. Claudius is a corrupted ruler, and, as a result, Denmark is corrupted too. This corruption is illustrated by a series of ominous events that create a darkened atmosphere throughout the episode. The first signs of corruption are visible in Ophelia’s madness, which is caused by two other gloomy events: Hamlet’s exile and Polonius’ death, followed by a secret burial, another sign that indicates corruption. The darkened atmosphere is heightened by the common people’s reaction to all these events. Everyone in the country feels disturbed and they are whispering and murmuring among themselves. As a result, Laertes’ return is accompanied by a short rebellion of the people. Another event that signifies corruption is Claudius’ evil plan to kill Hamlet, but the most tragic event in the episode is Ophelia’s drowning.

2 Throughout the play, Laertes’ character is sharply contrasted to Hamlet’s. Although they have both lost a father and want revenge, they are very different characters. Hamlet is reflective and has difficulty acting. Even when he is given the opportunity to kill Claudius, he has second thoughts believing it is not the right moment to act. Laertes, on the other hand, is active and has no time for thought. The moment he hears about his father’s death, he comes back from France swearing revenge. It is only when the King assures him of his innocence that Laertes calms down, but, still, he cannot remain inactive. He wants the guilty one to be punished. His desire for revenge is so strong that he doesn’t hesitate to become Claudius’ accomplice in his plan to kill Hamlet.

3 It has already been demonstrated how dependent on men Ophelia is. She suppresses her feelings for Hamlet out of respect for her father and brother. After Polonius’ sudden death and Hamlet’s exile she finds herself without the men she loves most. This abrupt loss literally drives her mad, as she loses her support and guidance in life. She is too innocent and too pure to face life on her own and she now feels unstable. Her madness is due to external pressures. She does not pretend to be mad in order to achieve an end, which is what differentiates her insanity from Hamlet’s. Hamlet pretends to be mad in order to plot against Claudius. Therefore his insanity is different from Ophelia’s.

Episode 10

1 The two gravediggers represent a humorous type of character found in Shakespeare’s plays. They are typical examples of common people whose wit acts as a foil to the language of their superiors. Their jokes and clever language set a comic tone in the episode and lighten the atmosphere. However, they are also macabre since the action takes place in a cemetery, a place associated with death. More importantly, the topics raised in this episode are of extreme seriousness. Ophelia has drowned but it is questionable whether she is entitled to a proper burial, and Hamlet is concerned about death and physical decay. All this sets a tragic tone in the episode.

2 From an early stage in the play, Hamlet seems preoccupied with death. What troubles him initially is the afterlife. He thinks that it is our fear for the unknown that makes us live and bear our miseries. This time, he is concerned with physical decay and the inevitability of death. He is shocked when he sees Yorick’s skull and remembers the King’s jester. He imagines physical characteristics, such as lips, that have now decayed and vanished. The thought that everyone’s body sooner or later will decompose appals him. No one can escape decay, no matter how important or noble they are. On the whole, Hamlet appears very respectful towards the dead.

3 There is a dilemma posed in this episode that signifies a matter of religious and moral importance. It is not clear whether Ophelia should be given a proper burial since it is not clear whether she committed suicide or she accidentally drowned. If she has willingly killed herself, she is not allowed to be given a proper burial as this would be unholy for the dead. Suicide is considered a sin; therefore the one committing it must be punished. Instead of having prayers read to them, they must be hit with stones. In Ophelia’s case, however, such things have been overlooked due to her position in the court. Being the daughter of Polonius, the King’s chief advisor, she is being treated with leniency. As a result, Ophelia is being taken to her resting place with a funeral service.
Episode 11

1 Hamlet's uncontrolled behaviour during Ophelia's funeral is due to love. This is highly ironic if one calls to mind Hamlet's behaviour in his encounter with Ophelia when she was alive. The passionate way in which he spoke to her then was also close to real madness. However, the end he wanted to achieve was different. In his encounter with Ophelia, Hamlet deliberately appeared to be mad and convinced her he didn't love her. At Ophelia's funeral, Hamlet appears to be raving mad as well; he even threatens Laertes and turns violent on him. However, this time he struggles to convince everyone of the opposite: that he loved Ophelia more than anyone and he is willing to do anything to prove his love for her. This time his madness seems genuine and not part of a plot.

2 What unites Claudius and Laertes is their desire to kill Hamlet, each one for his own reasons. Claudius feels threatened by him. Despite the tragedies that are taking place in his kingdom, he remains interested only in maintaining his power, and the only way to secure his position as King is to get rid of Hamlet. Laertes wants to avenge his father's death and, likewise, wishes Hamlet to be dead. These reasons are good enough for them to become partners in crime. On the other hand, Hamlet and Horatio share the strong bond of deep friendship. Neither uses the other as a means to an end. Horatio is Hamlet's companion, the one he can rely on for help, support and advice. In contrast to Laertes, who is Claudius' pawn in his murderous game, Horatio is regarded as a trustworthy friend of good judgment.

Episode 12

1 Before his duel with Laertes, Hamlet seems to have undergone a mental transformation. He appears far more peaceful now and not obsessed with carrying out his plan for revenge. He is even reconciled to the idea of death, a matter that always seemed to trouble him earlier in the play. He now sees death as something natural and unavoidable, so he is no longer afraid of it. His anger and madness have given way to calmness and reasoning. As a result, Hamlet appears sympathetic to others. He regrets being violent to Laertes and asks him for forgiveness. Even Hamlet's death matches the ideal of morality he has represented throughout the play. He killed Polonius, so his death seems like a fair punishment.

2 Action in the final scene sharply contrasts with action in the rest of the play. All the tension accumulated so far triggers a series of violent events, and justice finally prevails. Although the scene is rather macabre, with characters dropping one after the other, it only seems right that the play should end this way. Everyone gets what they deserve according to their actions. Claudius is punished for his crimes, and Laertes is justly killed with his own wickedness after taking his revenge. Likewise, Hamlet takes his revenge by killing Claudius but he is also punished with death for killing Polonius. Meanwhile, he watches his mother die as well. However, even Gertrude's death seems fair since she betrayed her son and was instrumental in Hamlet's death. Finally, Rosencrantz's and Guildenstern's execution represents a harsh but fair punishment, as the two of them were traitors. Overall, the feeling created in the last scene is that of balance and justice rather than distress.

Radio Host: Welcome back to ‘Family Troubles’ with me, your tough-talking agony aunt, Aunt Alice. Caller 2, you’re on the air.
Caller: Hi Alice. My name’s Holly. I’m calling from Richmond in South London.
Radio Host: Hello Holly. Welcome to the programme. So … tell us about your problem.
Caller: Well, it’s my little sister, Kelly. She’s always going into my room without asking and taking my clothes. It’s driving me crazy!
Radio Host: Have you asked her to stop?
Caller: Of course! But she just doesn’t listen to me!
Radio Host: You know, Holly, if your sister likes your clothes that obviously means she thinks you have great style and very good taste! Take it as a compliment. Why don’t you tell your sister that she can wear some of your clothes but she has to ask for your permission first. That way, she won’t go into your room without asking you.
Caller: I suppose I could. But I still don’t like that she wears my favourite clothes!
Radio Host: Well, let me tell you what I did with my sister when we were young. We had a common drawer where we both agreed to put everyday clothes that we didn’t mind sharing. But we agreed that anything that wasn’t in that drawer was special and so totally off limits.
Caller: I guess I could try that ...
Radio Host: Yes, try it and tell me how it goes.
Caller: OK. Thanks Aunt Alice!
Radio Host: My pleasure. And to all you other listeners out there with family troubles, keep those calls coming in! Caller 3, you’re on the air …

Joseph: Yes. That’s right.
Ben: I don’t know much about them to tell you the truth.
Joseph: Don’t you? Well, I’ve just been reading on their website that they’ve been around for over 3 decades, have almost 3 million members and have a presence in over 40 countries around the world.
Ben: Really? Remind me what kind of campaigns they’re involved in again.
Joseph: Well, they campaign to protect the world’s oceans and forests, stop global warming, encourage sustainable trade … and campaign for peace and disarmament … things like that.
Ben: Wow! Really worthwhile causes. Maybe I should think about becoming a member ...
Joseph: You definitely should. In fact … why don’t you sign up now?

Ben: I guess I could. But how much does it cost?
Joseph: Nothing! It’s completely free to join. But you can give them a donation of course. I think I’m going to give them a one-off donation of £50, but you can also sign up for monthly donations. They accept these from as little as £3 per month.
Ben: Wow. There’s no joining fee … OK! You’ve convinced me! Stay on their webpage. I’m going to join up too.

Melanie: What’s up, Sally? You look really stressed!
Sally: I don’t know. I just feel like everything’s getting on top of me at the moment. I’m really worried about the Science test next week … I’m way behind in my Maths project … and things at home aren’t very good lately …
Melanie: OK. First things first. We can study for the Science test together if you want. We’ve got the whole weekend to study which is plenty of time. And my older sister can help you with your Maths project. She’s really good at Maths. But what’s happening at home? Can I help?
Sally: Well, I haven’t told anyone yet ... but I think my parents are getting a divorce.
Melanie: Oh Sally! I’m sorry! You should have told me! I thought you had been looking a little sad, recently. How are you and your brother coping?
Sally: Not very well. Neither of us wants Mum and Dad to split up. We’re trying to convince them to work things out … but it doesn’t look like they’re going to.
Melanie: Oh Sally!, I know exactly how you’re feeling. When my parents divorced, it was horrible. But the thing to remember is, it doesn’t mean they love you any less or will be any less a part of your life.
Sally: I know … but the thought of not being able to see my Dad every day is horrible …
Melanie: But who says you won’t?! You don’t know what’s going to happen. Maybe your Dad will find a place really close to your house and then you’ll be able to see him any time you want.
Sally: I guess you’re right … You know, I’d forgotten your parents were divorced. I would have come to you earlier if I’d remembered because I really need to talk to someone who understands.
Melanie: Of course you do! Look, I have a music lesson after school today but why don’t you come round to my house tomorrow after school? That way, we can talk properly.
Sally: Really? I’d love to.
Melanie: Great. I’ll see you in the cafeteria at lunchtime and we can arrange it then.
Sally: OK! Thanks, Melanie. You’re a great friend!

Caller: Hmm, Hello … I … I … Oh, I don’t know if I can do this …!
Helpline: It’s OK. Take a deep breath and relax. This call is strictly confidential. You don’t even need to tell me your name. I’m just here to help. So, relax. And just start speaking when you are ready.

Caller: Thanks ... it’s just ... I’m calling because I don’t know who else I can talk to ... 

Helpline: That’s why I’m here. Do you want to tell me what’s wrong? 

Caller: I ... I ... I’m being bullied by a girl at school. 

Helpline: Has it being going on for long? 

Caller: Yes. More than two months ... 

Helpline: And why haven’t you wanted to tell anyone about it? 

Caller: Because the girl who’s bullying me said if I tell anyone she’ll give me real problems. I want to tell my parents ... but I know it’ll just make things worse ... 

Helpline: You know, the only way to stop bullies is to inform an adult. The best people to tell are your teachers at school because they are all trained in this area. They know exactly how to stop bullying. And what’s more, they know how to do it without the bully ever finding out that someone has told on them. Is there a teacher who you trust at school who you think you could talk to? 

Caller: Well, I do like my French teacher a lot ... 

Helpline: Well, why don’t you ask if you can talk to her after school tomorrow? You can tell her exactly what’s happening, that you’re scared, and she will take matters from there. 

Caller: OK, maybe I will ... 

Helpline: Please do. And will you call me tomorrow to tell me how things went? I would really like that. 

Caller: OK, I will. Thanks for listening to me. 

Helpline: My pleasure. And don’t worry. Everything will get better once you tell your teachers. 

Caller: Thanks Amanda. 

Spotlight on Exams — Ex. 1 (p. 19) 

Presenter: With us in the studio today is counselling psychologist Dr. James Smith. Dr. Smith is here to talk about peer pressure. Dr. Smith, welcome to the programme. 

Psychologist: Thank you. Well, there are two types of peer pressure - good peer pressure and bad peer pressure. Good peer pressure is when your friends persuade you to do something positive that you maybe didn’t have the courage to try. It can also be your friends convincing you not to do something because it is not in your best interest. Bad peer pressure, on the other hand, is when your peers persuade you to experience or do something that you don’t want to do. 

Now, most of the time, our peers have an extremely positive influence on our lives. Their influence is not positive and negative in equal measure. The trick is learning to reduce the negative impact they sometimes have. 

Teens give in to bad peer pressure for many reasons. Perhaps they want to be liked by a person they admire. Perhaps they don’t want to be the only person not doing something. Sometimes it can just be because they don’t want to be teased by the ‘cool’ crowd. 

So how can teens avoid bad peer pressure? Well, firstly, they can start by learning to feel comfortable saying ‘no’. With good friends you should never have to explain why it is you don’t want to do something. Secondly, there is no need to avoid situations where you’ll be asked by strangers to do things you don’t want. Simply think ahead of time about what you can say. 

For example, if you are going to a party and know you’ll be offered alcohol there, a good line to have in your head is something like, ‘Sorry, but I can’t. I’m in training’. 

These days, teens have to deal with a lot more pressure than in the past. This is because they are hit with unrealistic images of beauty, celebrity and success every single day on the TV, in magazines, in newspapers etc. Trying to live up to these impossible ideals and cope with peer pressure is very tough for teens. But I tell the teens who come to see me that becoming an adult means knowing when to go along with the crowd and when to be independent. I tell them not to worry. That sooner or later they will have the confidence they need to listen to their inner voice in difficult situations, rather than listen to others. 

I want to end by saying that one of the most important factors in every young person’s life is their peers. This is especially true during the teenage years because it is at this time that the influence of one’s peers begins to get greater than that of one’s family. 

Presenter: Thank you, Dr. Smith. 

Psychologist: My pleasure. 

Module 3 

3b — Ex. 4 (p. 21) 

1 Every day, we go to school, we learn, and then we go home. But I think it’s important for students to remember that, while we’re there, we all share certain responsibilities. For example, if we see somebody getting bullied, we should tell a teacher. Bullying is horrible and we should never tolerate it. People mustn’t be allowed to get away with something so nasty. But, most important of all, we have an obligation to respect our teachers. They work really hard to give us a good education and prepare us for the rest of our lives, even if it does include doing a lot of homework ... 

2 I’ve just been to a lecture about how to be a ‘green’ citizen. It was full of tips about the little things all of us can do to help the planet. Many of the tips — such as taking shorter showers and not leaving electrical appliances on standby — I knew already. But there were some interesting suggestions such as eating less meat and planting shade trees in your garden. I now want to read about these things some more. I don’t know if I could ever reduce my meat consumption, but if planting shade trees in my garden can cut down on my air conditioning use during the summer months, then I’d definitely consider it. But first I need to get more information.
3 To be completely honest, I always thought that global warming wasn’t really a problem. It seemed to me that people were worrying about nothing. But, one day, my daughter came home from school and told me what she had learned about it. Frankly, it worried me. I realised that global warming was a real problem that affects the air we breathe, the weather, and all life on the planet. Since then, I’ve decided it’s my duty to do what I can to help the planet. So, every Sunday, my daughter and I go on a beach clean-up. As she says, it’s the least we can do!

4b — Ex. 5 (p. 29)
Nurse: Good morning, Waterston Surgery ...
Tanya: Oh, hello. My name is Tanya Holden. I’m a patient of yours. I wonder if I could book an appointment to see my doctor, please.
Nurse: Of course, Miss Holden. What’s your doctor’s name?
Tanya: It’s Doctor Johnson.
Nurse: Thompson?
Tanya: No, Johnson. That’s J-O-H-N-S-O-N.
Nurse: Ah, Ok! Thank you. And what is your reason for booking the appointment? We need to know if you are experiencing any symptoms.
Tanya: Well, I have a slight temperature, runny nose and a persistent cough that seems to be getting worse. I don’t know if I should be taking any cough syrup or not.
Nurse: It is a dry cough?
Tanya: No, I have a lot of mucous and I’m coughing up phlegm.
Nurse: Mrs. Holden, avoid cough syrup at the moment because we do want you to cough up the phlegm and not have it build up inside. I was going to give you an appointment tomorrow, the 25th June, at 2 pm but I can squeeze you in between patients in one hour. Can you make it by 3 pm?
Tanya: Yes, certainly. Thank you.
Nurse: My pleasure. See you then.

Vocabulary Practice — Ex.5 (p. 34)
Radio Host: Welcome back, listeners. For those of you who have just joined us, we’re discussing water pollution. Caller 1, you’re on the air.
Caller 1: Hello. I know it’s only a small gesture but whenever I mow my lawn, I always dispose of my grass clippings carefully because if they wash into a storm drain they can really affect the quality of the water.
Radio Host: Caller 2, you’re on the air.
Caller 2: I would do something to help but is there any point? I can’t stop water pollution on my own, so why should I bother to do anything? Change only happens if lots of people do the same thing.
Radio Host: Caller 3, you’re on the air.
Caller 3: Hello. Every month, my class at school goes on a ‘litter drive’ at our local lake where we spend the whole afternoon picking up rubbish. The good thing is, not only are we helping to prevent water pollution but we’re keeping the lake area nice and pretty!
Radio Host: Caller 4, you’re on the air.
Caller 4: I don’t wash my car in the street. I go to the car wash at my local petrol station. It costs me a bit more, but I read somewhere that petrol stations have to dispose of their waste water carefully. If you wash your car on the street all the detergent just ends up in a river or stream. Unfortunately, not many people know things like this. I think the government has to do more to educate people.
Radio Host: Caller 5, you’re on the air.
Caller 5: Hi. I do my best to stop water pollution so when I see people doing things like pouring hazardous chemicals or detergents down a drain, it drives me crazy! I think anyone who deliberately pollutes our environment should be taken to the nearest police station.

Spotlight on Exams — Ex.2 (p. 35)
Jill: Good morning, doctor.
Doctor: Good morning, Jill. What seems to be the problem?
Jill: Well as you can see, my eyes are very red. They also feel itchy. Oh, and I have a runny nose, too!
Doctor: Yes, indeed. Let me ask you a few questions while I examine you. When did your symptoms start? And would you say you feel better or worse when you are outside?
Jill: My eyes started bothering me last week. And my nose, ... well, it started running a few days ago. As for whether I feel better outside ... well, funny you should ask. I definitely feel worse when I am at home.
Doctor: Hmm. So that eliminates hay fever and seasonal allergies. It sounds to me like there is something in your home that is causing your symptoms. Have you moved house recently or bought any new carpets or pets?
Jill: Well, I did buy a puppy a couple of weeks ago. Do you think I’m allergic to it?
Doctor: Well, not the puppy itself. I suspect that what’s bothering you is not your dog, but the dead skin cells that fall off your dog.
Jill: On no! Is there anything I can do? I don’t want to get rid of my puppy!
Doctor: You won’t have to. Just make sure your puppy stays out of your bedroom and if you have carpets in your house, get rid of them. Wooden floors are best and you must mop them regularly.
Jill: OK. I’ll do what you say. I hope it works.
Doctor: If it’s the dead skin cells that are causing your symptoms, it will work. And I am pretty sure it is. But just to be on the safe side I’d like to give you an allergy test to confirm that you are not allergic to anything else.
Jill: Oh. Will it hurt?
Doctor: Not really. I will make a few tiny scratches on your skin and place a different drop of liquid on each scratch. If you are allergic to the liquid, your skin will develop a red, itchy area.
What about cleaning? Well, in the future, people won’t need to do it! Floors, windows and other household surfaces will be self-cleaning, leaving people with more time to have fun. And how will clothes be washed? Well, not with water! Washing machines will use sound waves to ‘shake’ dirt off clothes.

What will bathrooms be like? Well, they will check for health problems. When people brush their teeth, a tiny computer inside their toothbrush will tell them if they have a bad tooth that needs repairing at the dentist. When people look in their bathroom mirror, a computer will tell them if they need to visit an eye doctor.

Kitchens of the future will have exciting new features, too. For example, fridges and cupboards will ‘speak’ to the cook: their digital voices will suggest ideas for meals according to what food is inside them. And, when supplies of a product are running low, computers in fridges and cupboards will order replacements from the supermarket using the Internet.

Living rooms will be different too. For instance, the size and shape of living rooms won’t be fixed in the future. Sliding walls will enable people to make their living room larger or smaller. Curtains won’t be needed either; as windows will turn from clear to dark at the touch of a button. And dual screen TVs will mean that people can watch different programmes at the same time from the same one TV screen.

What about bedrooms? Well, when bedroom wardrobes are opened, a computer screen will display the weather forecast and also images of what clothes each family member might like to wear. When people look into their bedroom mirror, messages will appear on the mirror telling them if it is time to get a haircut and so on. And music systems will ask what piece of music people want played whenever they walk into their bedroom.

Finally, when people go away on holiday they will be able to operate everything in their home via their laptop. They will be able to water their plants, feed their pets, open the garage door for a delivery — anything they want — all just by pressing on their laptop keypad.
Module 7

7b — Ex. 5 (p. 53)

A: Good morning. Walker College. How may I help you?
B: Good morning. I’m interested in signing up for a language course this summer. What do you have on offer?
A: We have classes in French, Italian, German and Spanish.
B: I was thinking about learning Italian.
A: Have you studied the language before?
B: No, I’m a beginner.
A: Very well. Would you prefer daytime or evening classes?
B: Evening. I’m at work during the day.
A: We run beginner’s classes every night, from Monday to Friday. Which would you prefer?
B: Mondays would be best. What time do the classes start?
A: At 5.30 p.m., except on Thursdays when they start at 8 pm.
B: Ah! In that case, Thursdays would be best as I don’t finish work until six. When does the course begin?
A: The summer term starts on Monday May 3rd, so the first class for the Thursday group will be on the 6th.
B: That’s great. Do I have to come to the college to enrol?
A: No, it’s possible to do so over the phone. Do you have your credit card details handy?
B: I’m afraid I don’t.
A: Not a problem. You can also enrol online via our website. The address is www.walkercollege.ac.uk/enrol.
B: Perfect. I’ll do that. Thank you for your help.
A: You’re welcome.
B: Goodbye.
A: Goodbye.

Vocabulary Practice — Ex. 5 (p. 58)

Tommy: Hi, Paolo! I haven’t seen you for a while. What have you been up to?
Paolo: I’ve just joined the Dian Fossey Gorilla Fund.
Tommy: ‘Gorilla’ membership sounds interesting. What is it?
Paolo: Well, for $250 you get to adopt a mother and baby gorilla. And you are sent a colour photograph and certificate to prove it.
Tommy: $250 is a lot of money.
Paolo: You’re right. But it’s for a good cause.

Spotlight on Exams — Ex. 1 (p. 59)

Speaker 1: I’ve never wanted to be anything but an actress. It’s a tough life and I know that few people make a living from it, but acting is my passion. The parents of some of the kids in my acting class tell them to keep acting as their hobby. That they shouldn’t think of it as a potential career. But my parents say that I should go with my heart. I really appreciate the fact that they say I should do what I love for a career. Even if it means that my life won’t perhaps be as easy as it would be if I pursue a more traditional career path.

Speaker 2: My Mum and Dad own a restaurant ... one of the most popular restaurants in the city, actually. They started it when I was little and I spent all my summers helping them out in it when I was growing up. For a few years now, they’ve been thinking about expanding the business ... opening up two or three more eateries in different parts of the city. That’s why I chose to do business studies at university. I’m in my final year now and I really can’t wait to start working with them. I want to put everything I’ve learnt into making our business become even more successful!

Speaker 3: I want to be a singer. Not one of those manufactured pop stars that get their break into the industry because of some reality TV show, but someone who makes it because they genuinely have talent. People tell me that I have a shot. They say I have something special. Nevertheless, I know that there are thousands of kids like me who dream of the same thing. That’s why I’m not taking any chances. I’m pursuing a singing career in my spare time but I’m studying accounting at university. That way, if I don’t make it, I’ll be able to fall back on a more guaranteed career.

Speaker 4: There have been doctors in my family for generations. Two of my grandparents are doctors, my mother is a doctor and my brother is studying to be a doctor. I suppose that a background like this pushes you in one of two directions: either you are completely turned off medicine or you want to become part of it. I feel the latter. Like my mum and brother, I have never considered becoming anything else but a doctor. Next year I’m starting medical school ... and I can’t wait!

Speaker 5: For years, I was certain that I wanted to be an engineer. Maths was always my best subject at school and it seemed the obvious choice to join my father and uncle in the family business. But in my final year of school, I went to a lecture on cosmology with one of my friends. I was fascinated by what I heard in the lecture, so I started reading up on the subject. I soon realised that there was nothing else I wanted to do with my life. Now I am in the middle of a physics degree at university, not an engineering degree!
Speaker 6: Should you pursue a career in which you have some natural talent? I think so. That’s why I want to be a fashion designer. It’s the area where I feel — and have been told — I have real talent. But I know how competitive the industry is. I know I will only succeed if I have drive and determination. I know it’s never just talent that gets you where you want to be but the ability to keep going no matter how many setbacks you have.Luckily I think I have this determination. I never take ‘no’ for an answer!

Module 8

8b — Ex. 4 (p. 61)

1 A: Sir! My suitcase hasn’t come out on the conveyor belt. What am I going to do? What if it’s been lost?
   B: Don’t panic Madam. I doubt your suitcase has been lost. It’s probably just been put on an incorrect flight, or is still at the airport you departed from. If you go to the ‘Lost Baggage’ desk over there, you can give the lady all the details. She will track down your suitcase and will have it delivered to your hotel when it arrives.
   A: OK. Thank you, Sir.

2 I work for Qantas as a flight attendant. It’s a great job but it can get pretty tiring, especially when you’re working the long-haul flights. I would say that one of the keys to the job is flexibility. If the thought of working holidays doesn’t appeal to you for example, the job isn’t for you. Also, although it is true that you get to fly to many glamorous destinations, you usually spend several years flying the less glamorous routes before you are put on the more exciting ones. But I can tell you from experience that it’s well worth the wait!

3 I absolutely agree with you! I was there last month on holiday and I couldn’t believe how much the prices had gone up since my previous visit. I’m not one to watch the pennies as you know, but I really resented paying two, three, sometimes four times the price of what we pay in this country to visit their museums and eat out. I think they’re going to be in for a drop in tourist numbers soon, because I really don’t know how the average family can afford to holiday there now. I’m certainly not sure I’ll be holidaying there again any time soon.
